INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

Section 303.90 The proposed change to Section 303.90 will remove the 30 day limitation currently in effect for use of sick leave for family illness in any calendar year. This change will conform the Personnel Rules to the collective bargaining agreement. In addition, employees who do not use any of their sick days in a calendar year will be awarded an additional personal day on January 1 of the next calendar year. This is also consistent with the collective bargaining agreement. The first date on which an additional personal day can be awarded is January 1, 1996.

Section 303.125(a). The proposed change conforms this Section with Section 303.90 by providing that employees who do not use any of their sick days in a calendar year will be awarded an additional personal day on January 1 of the next calendar year.

Section 303.130. The proposed addition of Section 303.130 will conform the Personnel Rules to the collective bargaining agreement and provide that covered members will be eligible for 10 days paid maternity/paternity leave per year.

303.140. The proposed change to Section 303.140 will remove the requirement of the Director's (Central Management Services) approval of leaves of absence without pay to employees for periods not to exceed six months. This change will assist the Department in decentralizing certain transactions and allow agencies under the jurisdiction of the Personnel Code to complete paperwork without the approval of the Director.

303.145. The proposed change to Section 303.145 will allow the State

This change will assist the Department in decentralizing certain transactions and allow agencies under the jurisdiction of the Personnel Code to complete paperwork without the approval of the Director.

Such request shall not be unreasonably denied. The Agency Head will consider whether the need for the Family responsibility leave is substantial, whether the action is consistent with the treatment of other similar situations and whether the action is equitable in view of the particular circumstances prompting the request.

SUBPART F: TUITION REIMBURSEMENT

Section 303.390 Tuition Reimbursement

- a) Tuition reimbursement is intended to serve as a management tool for the development of employees and for the attainment of agency goals. It should be administered as a mechanism through which mutual advantages are gained by both the employee and the State. Tuition reimbursement is not an unconditional or unilateral employee right or benefit.
- b) Each agency is responsible for providing budgetary funding for its tuition reimbursement program. The policy administered pursuant to these rules is not intended to alter, replace or diminish the content or use of Federal Grant in Aid, agency sponsored stipend or educational leave of absence programs. In administering this policy, other programs should be distinguished from tuition reimbursement programs and treated separately.

- c) The following tuition reimbursement guidelines have been developed so as to provide maximum flexibility and a framework within which a decentralized, but uniform, policy can be administered. These guidelines do not preclude agencies from imposing additional requirements or procedures with regard to tuition reimbursement in response to unique training requirements or budgetary restrictions.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PROPOSED AMENDMENTS

- 1) Eligibility: Any full time employee is eligible for reimbursement consideration. Employees hired on a temporary or emergency basis are not eligible for participation.
- 2) Tuition and Fees: Reimbursement will apply only toward tuition and lab fees. Additional costs such as for books, matriculation, activity and health fees will not be reimbursable expenses.
- 3) Reimbursement: Reimbursement is not to exceed 100% of tuition and lab costs at public institutions and 80% at private institutions. Agencies may establish an annual dollar cap per employee, depending upon funds available for the program.
- 4) Satisfactory Course Completion: Reimbursement for an approved course is contingent upon the employee submitting evidence of satisfactory completion (e.g., at least a grade of "C") together with receipts documenting the amount of tuition money paid. Reimbursement will be accomplished by means of a standard invoice voucher. At no time shall tuition be paid or reimbursed prior to completion of the course.
- 5) Course Load: Course load should be mutually agreed upon by the employee and his or her supervisor and should not harm an employee's on-the-job effectiveness.
- 6) Course Scheduling: Education and/or career development work should be scheduled as an off-duty activity. When a desired course is not available as an off-duty activity, an employee may use vacation or personal time. An employee and his or her supervisor may also arrange a flexible work schedule, provided such a schedule does not adversely affect work loads in his or her unit of assignment.
- 7) Full Participation: Priority should be given to those courses in which full participation is required on a regular basis and where final grades are issued since such conditions provide a reasonable basis against which satisfactory completion can be measured. In those cases where facilities for full participation in classroom instruction are not available or where attendance creates undue hardship, an agency director may approve enrollment in V.A. approved correspondence courses.
- 8) Degree Program: Reimbursement may be approved for work-related courses which are taken to complete requirements for a grammar school certificate or high school diploma, and for courses that lead to the upgrading of skills for the performance of an employee's assigned work responsibilities. Reimbursement may also be approved for work-related courses toward completion of college or graduate level degree programs.
- 9) Enrollment: Applicants will be required to gain approval from their supervisors and agency director (or authorized representative) prior to course enrollment.
- 10) Aid From Other Source: In applying for tuition reimbursement, an employee will indicate whether (s)he is or is not receiving aid from other sources (such as the G.I. bill, Federal Grants,

NOTICE OF PROPOSED AMENDMENTS

- Scholarships, etc.). The fact that an employee is eligible for or receiving aid from another source does not render him or her ineligible for participation in the Tuition Reimbursement Program. However, tuition reimbursement should be made only toward the balance between the outside aid awarded and the remaining tuition due.
- 11) Exclusions: Reimbursement is not intended to apply to in-service training conducted within the agency nor is it intended to apply to workshops, professional conferences, seminars, or other short term programs.
 - 12) Work Commitment/Pay Back: Employees receiving tuition reimbursement from the State shall incur a work commitment to the State.²
 - 1) Except as provided in subsection (d)(6) below, if State-paid training did not lead to a post secondary degree, employees shall be obligated to continue in the employ of the State for a period of at least 18 months following completion of the most recent course.
 - 2) If State-paid training did lead to a post secondary degree (i.e., Bachelors, Masters or other higher level professional or post graduate degree) and the State paid for 50% or more of the hours required to earn the degree, employees shall be obligated to continue in the employ of the State for a minimum of four (4) years after receiving the degree. Course work begun before January 1, 1992, shall not be counted as part of the 50% requirement under this Section.
 - 3) The tuition reimbursement agreement that is executed pursuant to this Section may require the employee to provide written status reports on his/her progress toward receiving a post secondary degree.
 - 4) If the employee voluntarily leaves State employment prior to fulfilling this work commitment, the State may recover payments in addition to interest at the rate of 18 per month from the time the State makes the payment until the time the State recovers the payment.
 - 5) The amount owed by an employee shall be reduced by 25% for each year the employee works for the State after the employee receives a post secondary degree, or by 1/18th of the gross amount for each month the employee works for the State after completing the most recent course which does not lead to a post secondary degree.
 - 6) This Section may not be used as the basis for recovering payments for course work that was started before January 1, 1992; was completed as a requirement for a grammar school certificate or a high school diploma; was to prepare for a high school level General Educational Development Test or to improve literacy or numeracy; specialized training in the form of a conference, seminar, workshop or similar arrangement offered by public or private organizations; was provided as part of the Upward

SOURCE: Adopted at 19 Ill. Reg. _____, effective _____.

Section 1536.10 Petition to Close Grade Crossing Under Mandatory Crossing Closure Rules

- a) A party may petition the Commission to close a grade crossing of a public highway with the tracks of a registered rail carrier on the grounds that public safety requires such a closure. The Commission shall, at public hearing, consider the evidence presented in the petition. Such hearing shall be conducted in accordance with the Commission's rules of practice (83 Ill. Atm. Code 2001).
- b) The petition filed under subsection (a), above, shall include the following information about the crossing:
- 1) whether crossing is located in an incorporated city, village or town; or, an unincorporated area; and
 - 2) whether crossing is signalized (i.e., equipped with automatic flashing lights with or without gates); or unsignalized (i.e., all other types of warning devices, including crossbuck signs); and
 - 3) the average daily vehicular traffic (ADT) which traverses the crossing; the ADT should be obtained from the Illinois Department of Transportation (IDOT), however, if IDOT does not respond within six months to such a request the petitioner may determine the ADT by performing a traffic study utilizing IDOT's current traffic monitoring practices and procedures; and

ILLINOIS COMMERCE COMMISSION

NOTICE OF PROPOSED RULES

- 4) the average number of freight train movements per day over the crossing; the average number of freight trains per day is calculated by taking the total number of freight train movements which occur over the crossing during a period of 28 consecutive days and then dividing that number by 28; and
- 5) the average number of passenger train movements per day over the crossing; the average number of passenger trains per day is calculated by taking the total number of passenger train movements which occur over the crossing during a period of 28 consecutive days and then dividing that number by 28; and
- 6) the maximum timetable speed for freight and for passenger trains operating through the crossing.
- c) Parties to the proceeding may contest the validity of the information which is included in the petition per subsection (b), above.

Section 1536.20 Criteria for Mandatory Crossing Closure

- a) The hearing examiner shall assign the crossing proposed for closure to one of the following categories:
- 1) Category 1: the crossing is located in an incorporated area and the crossing is signalized; or
 - 2) Category 2: the crossing is located in an incorporated area and the crossing is unsignalized; or
 - 3) Category 3: the crossing is located in an unincorporated area and the crossing is signalized; or
 - 4) Category 4: the crossing is located in an unincorporated area and the crossing is unsignalized.
- b) The categories listed in Section 1536.20(a) shall be differentiated by:
- 1) the crossing's ADT; and
 - 2) the crossing's Train Volume and Speed Index ("TVSI") which is calculated by taking the average number of freight and passenger train movements per day which use the crossing and multiplying each by their maximum timetable train speed. This calculation is represented by the following equation: $TVSI = (TF \times SF) + (Tp \times Sp)$

Where:

TVSI = Train Volume and Speed Index

TP = Average number of freight trains/day

SF = Maximum timetable speed for freight trains

SP = Maximum timetable speed for passenger trains

ILLINOIS COMMERCE COMMISSION

NOTICE OF PROPOSED RULES

- c) To be a candidate for mandatory closure a crossing must have an ADT value less than the threshold for the category, and a TVSI value equal to or greater than the threshold for the assigned category. The closure criteria for each crossing is:

Category	Characteristics	Closure Criteria
1)	Incorporated/Signalized	ADT \leq 150 and TVSI \geq 240
2)	Incorporated/Unsignalized	ADT \leq 200 and TVSI \geq 240
3)	Unincorporated/Signalized	ADT \leq 100 and TVSI \geq 300
4)	Unincorporated/Unsignalized	ADT \leq 125 and TVSI \geq 300

- d) The Commission shall consider evidence regarding the amount of adverse distance which closure will cause. For the purposes of this rulemaking, adverse distance is defined as the distance which must be traveled, from one side of the crossing to reach a point adjacent to and on the opposite side of the crossing to be closed, via the nearest alternate public crossing and roadway. The Commission shall also consider the adequacy of the alternate crossing and roadway. The alternate public crossing shall be considered adequate if it is equipped with automatic warning devices or grade separated.

- e) The alternate roadway shall be considered adequate if:

- 1) it is a roadway with an all-weather surface; and
- 2) it is of sufficient width to accommodate its existing vehicular traffic plus the vehicular traffic rerouted by the closure, per IDOT's Bureau of Local Roads and Streets Administrative Policies Manual, published March 1989; and
- 3) when an existing road is used as an alternate, the roadway is already utilized by the same types) of vehicular traffic as the roadway where the crossing is sought to be closed.
- 9) Proponents of the closure will bear the burden of proving the alternate public crossing and roadway meet the requirements in subsections (e) and (f) above or will meet them after improvements have been made.
- h) The amount of adverse distance which the closure will cause will not be considered unduly burdensome if:

 - 1) it is equal to or less than four miles in unincorporated areas; or
 - 2) it is equal to or less than 0.75 miles in incorporated towns, villages, and cities.

Section 1536.30 Criteria for Discretionary Crossing Closure

NOTICE OF PROPOSED RULES

- i) The Commission shall order the crossing closed if it meets the criteria set forth in subsections (c), (e), (f) and (h), above, except that no two crossings shall be closed in a row without the consent of the affected highway agency(s) if the distance between the two crossings measured along the railroads tracks is equal to or greater than one mile.
- j) The Commission shall, when supported by the evidence, order the construction of a turn-around or cul-de-sac to accommodate school bus traffic and/or highway maintenance equipment affected by the crossing closure.
- k) The Commission shall allocate the cost of any improvements found necessary to accommodate a crossing closure required by this Section among the railroad, IDOT and the Grade Crossing Protection Fund.
- l) The Commission shall dismiss a petition filed under Section 1536.10 if the criteria in this Section is not met. The petitioner in the case dismissed may not file a new petition sooner than two (2) years from the date of dismissal.

- a) Nothing in Section 1536.10 or Section 1536.20 of this Part shall prevent the Commission, after hearing, from ordering the closure of a crossing in accordance with the provisions of Section 18c-7401 of the Illinois Commercial Transportation Law [625 ILCS 5/18c-7401] (ICTL), regardless of the crossing's location or type of warning devices in service.
- b) In determining whether to close a crossing in such a proceeding the Commission shall make a finding that ...the public safety requires such alteration or abolition... and ...the public convenience served by the crossing in question is not such as to justify the further retention thereof... [625 ILCS 5/18c-7401(3)]. In making such a finding the Commission shall consider, but not be limited to, the following factors:
- 1) timetable speed of passenger trains; and
 - 2) distance to an alternate crossing; and
 - 3) the crossing's accident history for the last 5 years; and
 - 4) the amount of vehicular traffic and posted speed limits; and
 - 5) the number of freight trains and their timetable speeds; and
 - 6) the type of warning device present at the grade crossing; and
 - 7) alignments of the roadway and railroad, and the angle of intersection of those alignments; and
 - 8) use of the grade crossing by trucks carrying hazardous materials, vehicles carrying passengers for hire, and school buses; and
 - 9) use of the grade crossing by emergency vehicles; and
 - 10) train speeds at the crossing exceeding 79 mph.

Section 1536.40 Petition to Open Grade Crossing Under Mandatory Crossing Opening Rules

ILLINOIS COMMERCE COMMISSION
NOTICE OF PROPOSED RULES

A party may petition the Commission to open a grade crossing of a public highway with the tracks of a registered rail carrier on the grounds that public necessity requires such an opening.

Section 1536.50 Criteria for Mandatory Crossing Opening

- a) When a petition is filed to extend a public road, highway or street across a track at grade the Commission shall approve such crossing when evidence presented satisfies all of the following criteria:
 - 1) there is presently no vehicular access to the area to be served by the crossing; and
 - 2) alternate vehicular access cannot be provided at a cost equal to or less than the cost of establishing the crossing; and
 - 3) the crossing would not meet the Commission's criteria for closure specified in Section 1536.20 of this Part; and
 - 4) the crossing's average daily traffic (ADT) would be at least 1,000 vehicles per day within 3 years after the crossing was established; and
 - 5) the crossing's location does not interfere with the railroad's operational activities such as switching and usage of a passing track(s); and
 - 6) the crossing does not pose risks to train crews or motorists beyond those normally associated with at-grade crossings.
- b) The Commission shall allocate the cost associated with the construction of a new at-grade crossing required by subsection (a) above among the highway agency(s), IDOT, and the Grade Crossing Protection Fund.

Section 1536.60 Criteria for Discretionary Crossing Opening

Nothing in Section 1536.50 of this Part shall prevent the Commission from ordering the opening of a crossing in accordance with the provisions of Section 18c-7401 of the Illinois Commercial Transportation Law [625 ILCS 5/18c-7401] (ICTL). When determining whether to open a crossing under said law, the Commission shall consider, but is not limited to, the criteria listed in Section 1536.50(a) of this Part.

2) All inspection reports shall be complete completed with all pertinent information as required including the--county--and--zip code--in--which--the--object--is--located-- location and actual conditions observed.

3) Validation of Inspection Certificate. No Inspection Certificate issued for a boiler or pressure vessel inspected by a Special Inspector shall be valid after the boiler or pressure vessel for which it was issued shall cease to be insured by a duly authorized insurance company. The Chief Inspector may at any time suspend an Inspection Certificate when the boiler or pressure vessel for which it was issued may not continue to be operated without menace to public safety, or when the boiler or pressure vessel is found not to comply with these Rules. A Special Inspector shall have authority to request suspension of an Inspection Certificate for boilers or pressure vessels insured by the employing company. Such suspension of an inspection

Section 120.600 Existing Installation of Pressure Vessels

Maximum Allowable Working Pressure for Standard Pressure Vessels. The maximum allowable working pressure for standard pressure vessels shall be determined in accordance with the applicable provisions of the ASME Code under which they were constructed and stamped.

a) Maximum Allowable Working Pressure for Nonstandard Pressure Vessels.

1) For Internal Pressure. The maximum allowable working pressure on the shell of a nonstandard pressure vessel shall be determined by the strength of the weakest course computed from the thickness of the plate, the tensile strength of the plate, the efficiency of the longitudinal joint, the inside diameter of the course and the factor of safety set by this Part.

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

$TS \times t \times E / (R \times FS) =$ Maximum Allowable Working Pressure, PSIG
 Where:

TS = ultimate tensile strength of shell plate, psi. When the tensile strength of steel plate is not known, it shall be taken as 55,000 psi for temperature not exceeding 650F.

t = minimum thickness of shell plate of weakest course, inches.

E = efficiency of longitudinal joint, depending upon construction.
 Use the following values:

For Fusion-Welded and Brazed Joints:	
Single lap welded	40
Double lap welded	60
Single butt welded	60
Double butt welded	75
Forge welded	70
Brazed steel	80

For riveted joints -- calculate riveted joint efficiency in accordance with rules given in Section I, Part PR, of the 1971 ASME Code.

R = inside radius for weakest course of shell, inches, provided the thickness does not exceed 10 percent of the radius. If the thickness is over 10 percent of the radius, the outer radius shall be used.

FS = factor of safety permitted shall be a minimum of 5.0.

- 2) For External Pressure. The maximum allowable working pressure for cylindrical nonstandard pressure vessels subjected to external or collapsing pressure shall be determined by the Rules in Par. UG-27 and UG-28 of Section VIII of the ASME Code.
- 3) Factors of Safety. The minimum factor of safety may be increased when deemed necessary by the Inspector to assure the operation of the vessel within safe limits. The condition of the vessel and the particular service to which it is subject will be determining factors.
- 4) End Closures. The maximum allowable working pressure permitted for formed heads under pressure shall be determined by using the appropriate formulas from Par. UG-32, UG-33, or UG-35 of Section VIII, ASME Code and the tensile strength and factors of safety given above.

Section 120.1041 Repair and Alteration Requirements

- a) Repairs. Except as permitted for owners-users in Section 120.1000(b), no repair to a boiler or pressure vessel shall be initiated without the authorization of the Inspector who shall be satisfied that the welding procedures and welders are qualified and that the repair methods are acceptable. The Inspector may give prior approval for repairs of a routine nature. In every case, however, the Inspector shall be advised of each repair under such prior agreement.
- b) Alterations. Except as permitted for owner-users in Section 120.1000(b), alterations to boilers and pressure vessels shall be performed by an organization in possession of a National Board "R" Certificate of Authorization, provided the alterations are within the scope of such authorization. No alteration to a boiler or pressure vessel shall be initiated without the authorization of the Inspector who shall be satisfied that the alteration methods and calculations

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

are acceptable. If the Inspector considers it necessary, the Inspector shall make an inspection of the object before granting such authorization.

- c) Acceptance of Repairs and Alterations. Provided that repairs or alterations are acceptable to the Authorized Inspection Agency responsible for the boiler or pressure vessel, acceptance of repairs and alterations may be made by an Inspector employed by any of the following:
- 1) Illinois Division of Boiler and Pressure Vessel Safety.
 - 2) The Inspection Agency of record of the organization making the repair or alteration.
 - 3) The Authorized Inspection Agency, provided the work was not performed by the Agency employing the Inspector, except as provided in Section 120.1041(e) of this Part.
- d) Acceptance Inspection. It shall be the responsibility of the organization making the repair or alteration to coordinate the acceptance inspection of the repair or alteration. Except for repairs of a routine nature, a completed record of welding repairs shall be submitted to the Division by those organizations authorized under Section 120.1000(c)(2). Organizations in possession of National Board "R" Stamp shall submit the completed Form RL.
- e) Owner-User Acceptance Inspection of Repairs. An Owner-User Inspector may perform acceptance inspections of repairs and alterations to boilers and pressure vessels when such repairs and alterations have been performed by the Inspector's employer, provided the repair organization and inspection procedures have the Division's specific approval. Such acceptance inspection procedures shall be subject to the concurrence of the Authorized Inspection Agency responsible for the boiler or pressure vessel.
- f) Replacement Pressure Parts. In general, replacement pressure parts may be classified as follows:
- 1) Replacement parts subject to internal or external pressure that consist of materials which may be formed or assembled to the required shape by bending, forging or other forming methods, but on which no shop fabrication welding is performed may be supplied as material. Material and part identification shall be supplied in the form of bills of material and drawings with ASME Code compliance.
 - 2) Replacement parts subject to internal or external pressure that are fabricated preassembled by welding, but on which shop welding performed in accordance with Section IX and other applicable Sections of the ASME Code, shall have the assembly identification shall be supplied in the form of bills of material and drawings. The supplier or manufacturer shall certify that the material, design and fabrication are in accordance with the applicable Section of the ASME Code.
 - 3) Replacement parts subject to internal or external pressure

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

fabricated by welding which require shop inspection by an Authorized Inspector shall be fabricated by a manufacturer having an ASME Certificate of Authorization and the appropriate Code Symbol Stamp. A Manufacturer's Partial Data Report shall be supplied by the manufacturer.

- g) Pressure Tests
- 1) Repairs. The Inspector may require a pressure test after the completion of a repair to a boiler or pressure vessel when in the Inspector's judgment one should be conducted.
 - 2) Alterations. A pressure test in accordance with the National Board Inspection Code shall be applied to the boiler or pressure vessel on the completion of an alteration.
 - 3) Repair Methods. Repair methods in this Section shall be used in conjunction with the general requirements in Section 120.1000(b) of this Part.
 - 4) Defect Repairs
 - 1) General. A repair of a defect, such as a crack in a welded joint or base material, shall not be made until the defect has been removed. A suitable nondestructive method shall be used to assure its complete removal. If the defect penetrates the full thickness of the material, the repair shall be made with a complete penetration weld such as double butt weld or a single butt weld with or without backing. Before repairing a cracked area, care shall be taken to investigate its cause and to determine its extent.
 - 2) Unstayed Boiler Furnace Cracks. Cracks at the knuckle or at the turn of the flange of the furnace opening require immediate replacement of the affected area or specific approval of repairs by the Authorized Inspection Agency.
 - 3) Rivet or Staybolt Hole Cracks. Cracks radiating from rivet or staybolt holes may be repaired if the plate is not seriously damaged. If the plate is seriously damaged, it shall be replaced.
 - 4) Minor Defects. Minor cracks, isolated pits, and small plate imperfections shall be examined to determine the extent of the defect and whether welding is required. When welding is required, these defects shall be prepared for welding by removing to solid metal. Liquid penetrant or magnetic particle examination may be used before and/or after welding.
 - 5) Defective Bolting. Defective bolting material shall not be repaired but shall be replaced with suitable material which meets the specifications of the applicable Section of the ASME Code.
 - j) Wasted Areas
 - 1) Shells, Drums, Headers. Wasted areas in stayed and unstayed shells, drums and headers may be built up by welding provided that in the judgment of the Inspector the strength of the structure will not be impaired. Where extensive weld build-up is employed, the Inspector may require an appropriate method of NDE

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

(nondestructive examination) for the complete surface of the repair. For repairs of minor defects see Section 120.1041(i)(4) of this Part.

2) Access Openings. Wasted areas around access openings may be built up by welding or they may be repaired. In boilers, the area to be so repaired shall not be closer than 2 inches (50.8mm) from any knuckle.

3) Flanges. Wasted flange faces may be cleaned thoroughly and built up with weld metal. They should be machined in place if possible to a thickness not less than that of the original flange or that required by calculations in accordance with the provisions of the applicable Section of the ASME Code. Wasted flanges may also be remachined in place without building up with weld metal provided the metal removed in the process does not reduce the thickness of the flange to a measurement below that calculated above. Flanges which leak because of warpage or distortion and which cannot be remachined shall be replaced with new flanges which have at least the dimensions conforming to the applicable Section of the ASME Code.

4) Tubes. Wasted areas on tubes may be repaired by welding provided that in the judgment of the Inspector the strength of the tube will not be impaired.

Corrosion, Grooving.

A) Localized corrosion that produced a groove, especially along or immediately adjacent to a joint, could be more serious than a similar amount of corrosion on solid plate away from the joint. Grooving and cracks along longitudinal joints are especially significant as they are likely to occur where the material is more highly stressed. Severe corrosion is likely to occur at points where the circulation of the corrosive fluid is poor; such places shall be examined most carefully.

B) For the purposes of estimating the effect of corrosion or other defects upon the strength of a shell, comparison shall be made with the efficiency of the longitudinal joint of the boiler or pressure vessel, the strength of which is always less than that of a solid sheet.

C) All flanging shall be inspected thoroughly, particularly the flanges of heads that are not stayed. Internal grooving in the fillets of such heads and external grooving in the outer surfaces of heads concave to pressure are very common since there is a slight movement in heads of this character which produces this kind of defect. Some types of boilers or pressure vessels have the ogee or reversed-flange construction in a few of their parts that may be inaccessible to the eye, but the conditions shall be determined by the insertion of a borescope, fiber optics or a mirror which, at a proper angle, will reflect back to the

NOTICE OF PROPOSED AMENDMENT

eye the condition of such a part.

D) On new vessels and on vessels for which service conditions are being changed, one of the following methods shall be employed to determine the probable rate of corrosion from which the remaining wall thickness at the time of the next inspection can be estimated:

- i) The corrosion rate as established by accurate data collected by the owner or user on vessels in the same or similar service.
- ii) If accurate data for the same or similar service are not available, the probable corrosion rate as estimated from the Inspector's knowledge and experience on vessels in similar service.
- iii) If the probable corrosion rate cannot be determined by either of the above mentioned methods, thickness determinations shall be made after approximately 1000 hours of service, or one normal run if longer than this; subsequent sets of thickness measurements shall be taken after additional similar intervals until the corrosion rate is determined by this method; the corrosion data indicated by the first inspection may be used as a first approximation of the corrosion rate but shall be excluded from all subsequent computations of the corrosion rate, since attack on the initial surfaces may not be indicative of subsequent attack on corroded surfaces.

k) Seal Welding

- 1) Seal Welding of Tubes. Tubes may be seal welded provided the ends of the tubes have sufficient wall thickness to prevent burn through and the requirements of the appropriate Sections of the ASME Code are satisfied.
- 2) Seal Welding of Riveted Joints. Edges of butt straps, plate laps and nozzles, or of connections attached by riveting may be restored to original dimensions by welding. Seal welding of riveted joints, butt straps or rivets shall require the approval of the Authorized Inspection Agency.
- 3) Re-Ending or Piecing Pipes and Tubes. Re-ending or piecing pipes and tubes is permitted provided the thickness of the remaining tube or pipe is not less than 90 percent of that required by the applicable Section of the ASME Code.
- 4) Patches
 - 1) Flush Patches. The weld around a flush patch shall be a full penetration weld and the accessible surfaces shall be ground flush where required by the applicable Section of the ASME Code. Flush welded patches shall be subjected to an appropriate nondestructive examination which shall be consistent with the original construction requirements.
 - 2) Tube Patches. In some situations it is necessary to weld a flush

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

patch on a tube, such as when replacing tube sections and accessibility around the complete circumference of the tube is restricted or when it is necessary to repair a small bulge. This is referred to as a window patch.

3) Threaded stays may be replaced by welded-in stays provided that, in the judgment of the Inspector, the plate adjacent to the staybolt has not been materially weakened by deterioration or wasting away. All requirements of the applicable Section of the ASME Code governing welded-in stays shall be met.

n) Alteration Methods. Alteration methods shall comply with the general requirements of Section 120.1000(b) of this part.

o) Replacement Drums and Shells. Major replacement of pressure parts, including drums and shells, which are fabricated by welding and for which a Manufacturer's Data Report is required by the applicable Code Section shall be fabricated by a manufacturer having an ASME Certificate of Authorization and the appropriate Code Symbol Stamp. The item shall be inspected, stamped with the applicable Code Symbol and the word "PART", and reported on the appropriate Manufacturer's Partial Data Report.

p) Replaced Stamping. When a repair or alteration requires removal of that part of a boiler or pressure vessel containing the Code Stamping, the Inspector shall, subject to the approval of the jurisdiction, witness the making of a facsimile of stamping, the obliteration of the old stamping and the transfer of the new part. When the stamping is on a nameplate, the Inspector is to witness the transfer of the nameplate to the new part. The Code Symbol is not to be restamped.

q) Rerating of a Boiler or Pressure Vessel. Rerating of a boiler or pressure vessel by increasing the maximum allowable working pressure (internal or external) or temperature, or decreasing the minimum temperature such that additional mechanical tests are required, shall be considered an alteration and shall be done only after the following requirements have all been met to the satisfaction of the Authorized Inspection Agency:

- 1) Revised calculations verifying the new service conditions shall be required from the original manufacturer for review and acceptance by the Authorized Inspection Agency. When such calculations cannot be obtained from this source, they may be prepared by an Engineer and forwarded for review and acceptance by the Authorized Inspection Agency.
- 2) All ratings shall be established in accordance with the requirements of the Code to which the boiler or pressure vessel was built or by computation using the appropriate formulas in the latest edition of the ASME Code if all essential details are definitely known to comply with the edition of the Code to which the object was built.
- 3) Current inspection records verify that the boiler or pressure

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENT

vessel is satisfactory for the proposed service conditions. 4) The boiler or pressure vessel has been pressure tested for the reated condition as required by Section 120.1041(g)(2).

r) Suggestions

1) The Inspector should be well informed of the natural and neglectful causes of defects and deterioration of boilers and pressure vessels. The Inspector should be conscientious and extremely careful in observing, taking sufficient time to make the examinations thorough in every way, taking no one's statement as final as to conditions not personally observed, and, in the event of inability to make thorough inspections, the Inspector should note it in the report and not accept the statements of others.

2) The Inspector shall make a general observation of the conditions of the boiler room and apparatus, as well as of the attendants, as a guide in forming an opinion of the general care of the equipment.

3) The Inspector shall weigh very carefully the condition of any defects in order to determine their relation to, or influence upon, the safety of the inspected boiler or pressure vessel. The Inspector shall question responsible employees as to the history of old boilers or pressure vessels, their peculiarities and behavior; ascertain what, if any, repairs have been made; ascertain the character of repairs; and investigate and determine whether repairs were made properly and safely.

This rule requires employers to report all fatalities and catastrophes that result in the hospitalization of three or more employees within eight hours of the accident or death. Currently, employers must report all fatalities and catastrophes that result in the hospitalization of five or more employees within 48 hours. Impact is not expected to be significant.

"Personal Protective Equipment for General Industry; Final Rule," FR59(66):16334 April 6, 1994.

This rule requires employers to provide additional education and training on the proper selection and use of personal protective equipment (PPE). It updates references to be used when selecting PPE, and contains additional performance criteria for some types of PPE. All work sites are potentially covered by the rule.

"Hazard Communication; Final Rule; Temporary Stay of Effective Date for Wood Products," FR59(71):17478 April 13, 1994.

This rule stays certain Material Safety Data Sheet and labeling provisions applicable to wood or wood products capable of generating dust, or treated

"Permit Required Confined Spaces for General Industry; Final Rule; Technical Amendment," FR59(96):26114 May 19, 1994.

The rule makes one non-substantive change to the text, and revises information in Appendix E concerning atmospheric testing and monitoring in servers. The amendment clarifies that a performance-oriented approach should be used by the employer when determining the contaminants of concern. Impact will be minor.

"Electric Power Generation, Transmission and Distribution; Electrical Protective Equipment; Final Rule; Stay of Enforcement and Correction," FR 59(125):33658 June 30, 1994.

This rule stays enforcement of certain provisions of 29CFR 1910.269 until Nov. 1, 1994. It stays enforcement of the paragraph requiring elimination or control of ignition sources in coal handling operations until February 1, 1996. It clarifies language in the preamble concerning the type of protective clothing required when employees are exposed to flames or arcs. It also corrects several minor errors in the text of the standard. Impact is not significant.

"Personal Protective Equipment for General Industry; Final Rule; Corrections," FR59(128):33910 July 1, 1994.

This rule clarifies that the new hazard assessment and training requirements for PPE do not amend those of the respiratory protection standard or the electrical protective equipment standard. It corrects the description of the work situation that requires the use of protective footwear. Impact is not significant.

"Personal Protective Equipment for General Industry; Final Rule; Administrative Stay FR59(128):34580 July 6, 1994.

The effective date of the new hazard assessment and training provisions for PPE is stayed from July 5, 1994 until October 5, 1994. It clarifies that 29CFR 1910.138; Hand Protection, is replaced by the new version. Impact is minor.

"Retention of DOT markings, Placards and Labels; Final Rule," FR59(137):36695 July 19, 1994.

This rule states that employers must retain all IDOT required markings, labels, and placards on containers from the time they are received until the container is emptied of the contents. Impact is not significant.

"Confined and Enclosed Spaces and Other Dangerous Atmospheres in Shipyard Employment; Final Rule," FR59(141):37816 July 25, 1994.

This rule expands permit required confined space safety requirements to all sectors of the shipyard industry. Impact is not significant.

"Safety Standards for Fall Protection in the Construction Industry; Final Rule," FR59(152):40672 August 9, 1994.

This rule expands the use of a fall protection system such as guardrails, safety nets, or personal fall arrest systems, to all construction workers exposed to fall hazards of six feet or greater. The use of body belts as a fall arrest system will be prohibited as of January 1, 1998. Some state and local entities that perform construction or repair work will be covered by the rule.

"Occupational Exposure to Asbestos, Tremolite, Anthrophyllite, and Actinolite; Final Rule," FR59(153):40964 August 10, 1994.

This amendment reduces the permissible exposure limit from .2 fibers/cc to .1 fibers/cc. It establishes a new system of work practice controls for building workers that may disturb asbestos containing materials (ACM). It establishes mandatory work practices for brake and clutch repair. It will affect all public sector employees in building containing ACM and all vehicle maintenance facilities that perform brake or clutch repair.

"Hazardous Waste Operations and Emergency Response; Final Rule," FR51(161):43268 August 22, 1994.

This rule updates certain references made to NFPA standards in Appendix B of 1910.120 and 1926.65. It also adds a non-mandatory Appendix E, which describes an effective training curriculum and program. Emergency services such as fire departments and HAZMAT response teams are affected by the rule, although impact is expected to be minimal.

"Logging Operations; Final Rule," FR59(196):51672 October 12, 1994.

This rule strengthens safety regulations governing pulpwood operations, and expands them to cover the entire logging industry. It does not impact public sector employers.

"Permit Required Confined Spaces for General Industry; Final Rule; Technical Amendment to Preamble," FR59(213):82208 November 4, 1994.

Safety and Health Administration, private sector businesses are not affected. All public sector work sites will be affected.

Costs associated with compliance are for the correction of work site health and safety hazards, which will have a direct positive impact within the public sector work force.

Savings will be realized due to fewer workplace injuries and occupational diseases, lower direct and indirect medical costs, lower worker's compensation costs, lower replacement employee costs, and increased employee productivity due to fewer lost work days and a healthier work force.

Variance procedures within the regulations allow public sector employers to petition for variance from standards when compliance cannot be achieved because of factors beyond their control.

C) Reporting, bookkeeping, or other procedures required for compliance:
The new standards require written compliance programs. These standards do not require the use of any new standardized forms.

Specific examples of information required by the written programs include monitoring data, documentation of employee training, standard safe operating procedures, documentation of personal protective gear selection, employee exposure records, and maintenance of employee medical records. Guidance for the proper maintenance of the documentation is provided free of charge by the Department.

D) Types of professional skills necessary for compliance: General administrative skills are sufficient for compliance with the proposed amendments.

5) A Complete Description of the Subjects and Issues Involved:

Section 13.3 of the Act requires the Board to adopt regulations which are "identical in substance" with federal regulations promulgated by the United States Environmental Protection Agency (U.S. EPA) to implement the pretreatment requirements of Sections 307 and 402 of the Clean Water Act. The proposed amendments adopt the amendments to the pretreatment regulations adopted by the U.S. EPA between July 1, 1993 and December 31, 1993.

The amendments add effluent standards for pollutants that were previously deleted from the regulations in response to a decision in Chemical Manufacturer's Association v. U.S. EPA, 870 F.2d 177 (5th Cir.), modified, 885 F.2d 253 (5th Cir. 1988), cert. denied. The amendments also establish effluent standards for the pesticide chemical industry. A compliance date of September 28, 1996 is added for discharges subject to pretreatment standards for existing sources involved in the manufacturing of pesticide chemicals.

A more detailed description of the amendments can be found in the Board's opinion in Docket R94-10 of February 16, 1995, which is available from the Pollution Control Board at the address below. Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] provides that Section 5 of the Illinois Administrative Procedural Act (IAPA) shall not apply. SUBPART O: ORGANIC CHEMICALS, PLASTICS AND SYNTHETIC FIBERS

Section 307.2400 General Provisions

a) General definitions. The Board incorporates by reference 40 CFR 414.10 ~~414.10-1992~~ (1993). This incorporation includes no later amendments or editions.

b) Applicability.

- 1) This Subpart applies to process wastewater discharges from all establishments or portions of establishments which manufacture the organic chemicals, plastics and synthetic fibers (OCPSF) products or product groups which are covered by Sections 307.2402 through 307.2408 and which are included in the following SIC major groups, as defined in the Standard Industrial Classification Manual, incorporated by reference in 35 Ill. Adm. Code 310.107.
 - A) SIC 2821 -- Plastic materials, synthetic resins and nonvulcanizable elastomers.
 - B) SIC 2823 -- Cellulosic man-made fibers.
 - C) SIC 2824 -- Synthetic organic fibers, except cellulosic.
 - D) SIC 2805 -- Cyclic crudes and intermediates, dyes and organic pigments.
 - E) SIC 2809 -- Industrial organic chemicals, not elsewhere classified.
- 2) This Subpart applies to wastewater discharges from OCPSF research and development, pilot plant, technical service and laboratory bench scale operations if such operations are conducted in conjunction with and related to existing OCPSF manufacturing activities at the plant site.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- 3) Notwithstanding subsection (b)(1) above, this Subpart does not apply to discharges resulting from the manufacture of OCPSE products if the products are included in the following SIC subgroups and if the products have in the past been reported by the establishment under these subgroups and not under the SIC groups listed in subsection (b)(1) above:
- A) SIC 284305 -- Bulk surface active agents.
- B) SIC 28914 -- Synthetic resin and rubber adhesives[†], elsewhere
- C) Chemicals and chemical preparations not elsewhere classified:
- i) SIC 2899568 -- Sizes, all types.
- ii) SIC 2899597 -- Other industrial chemical specialities, including fluxes, plastic wood preparations and embalming fluids.
- D) SIC 2911058 -- Aromatic hydrocarbons manufactured from purchased refinery products.
- E) SIC 2911632 -- Aliphatic hydrocarbons manufactured from purchased refinery products.
- 4) Notwithstanding subsection (b)(1) above, this Subpart does not apply to any discharges for which a different set of previously promulgated standards for this Part apply, unless the facility reports OCPSE products under SIC codes 2865, 2869 or 2821, and the facility's OCPSE wastewaters are discharged separately to a POTW.
- 5) This Subpart does not apply to any process wastewater discharge from the manufacture of organic chemical compounds solely by extraction from plant and animal raw materials or by fermentation processes.
- 6) Discharges of chromium, copper, lead, nickel and zinc in complexed metal-bearing waste streams[‡], listed in Section 307.2491, are not subject to this Subpart.
- 7) Non-amendable cyanide
- A) Discharges of cyanide in "cyanide-bearing waste streams", listed in Section 307.2490, are not subject to the cyanide limitations of this Subpart if
- i) the control authority determines that the cyanide limitations are not achievable due to elevated levels of non-amendable cyanide (i.e., cyanide that is not oxidized by chlorine treatment) that result from the unavoidable complexing of cyanide at the process source of the cyanide-bearing waste stream, and
- ii) the control authority establishes an alternative total cyanide or amendable cyanide limitation that reflects the best available technology economically achievable.
- B) The control authority shall base its determination made pursuant to subsection (b)(7)(A) above on a review of the relevant engineering, production, and sampling and analytical information at its disposal, including

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- measurements of both total and amenable cyanide in the waste stream.
- C) The control authority shall set forth its determination made pursuant to subsection (b)(7)(A) above in a written analysis of the extent of complexing in the waste stream and its impact on cyanide treatability, based on the information at its disposal.
- D) Alternative cyanide discharge limitation determinations made pursuant to this subsection are subject to the limitations of Section 307.1103. Provided, however, Section 307.1103 shall not be used to allow a discharge of total cyanide in excess of that otherwise allowed by this subsection.
- 8) Allowances for non-metal-bearing waste streams.
- A) The control authority shall establish discharge limitations for lead and zinc for waste streams not listed in Section 307.2490 and not otherwise determined to be "metal-bearing waste streams" if it determines that the wastewater metals contamination is due to background levels that are not reasonably avoidable, from such sources as intake water, corrosion of materials of construction, or contamination of raw materials.
- B) The control authority shall base its determination made pursuant to subsection (b)(8)(A) on a review of relevant plant operating conditions, process chemistry, engineering, and sampling and analytical information.
- C) The control authority shall set forth its determination made pursuant to subsection (b)(8)(A) above in a written analysis of the sources and levels of the metals, based on the information at its disposal.
- D) The control authority may establish limitations for lead and zinc for non-"metal-bearing waste streams" for the purposes of subsection (b)(8)(A) above between the following levels:
- i) the lowest level that the control authority determines, based on professional judgement, can be reliably measured and
- ii) the concentration of such metals present in the wastestreams, but not to exceed the applicable limitations contained in Sections 307.2401 through 307.2407.
- iii) For zinc, the applicable limitations that the discharge must not exceed are those appearing in the tables in Sections 307.2401 through 307.2407, not the alternative limitations for rayon fiber manufacture by the viscose process, as set forth in footnote 2 to the table in 40 CFR 414.25, incorporated by reference at Section 307.2401(c)(1), or the alternative limitations for acrylic fiber manufacture by the zinc chloride/solvent process, as set forth in footnote 2

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- to the table in 40 CFR 414.35, incorporated by reference at Section 307.2402(c)(1).[†]
- E) The limitations for individual dischargers shall be set on a mass basis, by multiplying the concentration allowance established by the control authority times the process wastewater flow from the individual wastestreams in which incidental metals are present.
- c) Compliance date. All discharges subject to a pretreatment standard for existing sources in this Subpart must comply with the standard by no later than November 5, 1990.

(Source: Amended at 19 Ill. Reg. _____, effective _____)

Section 307.2401 Rayon Fibers

- a) Applicability. This Section applies to discharges of process wastewater resulting from the manufacture of rayon fiber by the viscose process only.
- b) Specialized definitions. None.
- c) Existing sources:
- 1) The Board incorporates by reference 40 CFR 414.25 ~~†1992†~~ (1993) as amended at 58 Fed. Reg. 36892 (July 9, 1993). This incorporation includes no later amendments or editions.
 - 2) No person subject to the pretreatment standards incorporated by reference in subsection (1) shall cause, threaten or allow the discharge of any contaminant to a POTW in violation of such standards.
- d) New sources:
- 1) The Board incorporates by reference 40 CFR 414.26 ~~†1992†~~ (1993) as amended at 58 Fed. Reg. 36892 (July 9, 1993). This incorporation includes no later amendments or editions.
 - 2) No person subject to the pretreatment standards incorporated by reference in subsection (1) shall cause, threaten or allow the discharge of any contaminant to a POTW in violation of such standards.
 - 3) "New source" means any building, structure, facility or installation the construction of which commenced after March 21, 1983.
- (Source: Amended at 19 Ill. Reg. _____, effective _____)

Section 307.2402 Other Fibers

- a) Applicability. This Section applies to discharges of process wastewater resulting from the manufacture of the products classified under SIC 28213, thermoplastic resins and thermoplastic resin groups, listed below. Product groups are indicated with an asterisk (*).

4) Statutory Authority: [225 ILCS 65/10, 14, 15 and 19]

5) A Complete Description of the Subjects and Issues Involved: This rulemaking updates Sections of the nursing rules pertaining to application for examination, licensure by endorsement and approval of education programs.

In Section 1300.20, language was removed concerning the issuance of work permits for applicants determined eligible for licensure except for passing the examination. The exam is now computerized and can be taken upon request; thus, eliminating the need for the Department to issue work permits. A subsection pertaining to applicants who fail to demonstrate fulfillment of educational requirements is moved to improve clarity.

In Section 1300.30, a subsection is added for applicants who received their education outside of the United States, including application requirements for those who are exempt from taking the Commission on Graduates of Foreign Nursing Schools (CGFNS) Examination. Other new language in the Endorsement Section states that each applicant for a temporary endorsement permit will have his/her license checked on the National Council Network (NCNET) disciplinary data bank to determine if any disciplinary action is pending on the applicant's file.

In Section 1300.40, two changes were made in response to recommendations made by the nursing education community and the State Committee on Nursing. One changes the ratio of students to faculty in the clinical area from 12 to 1 to a maximum of 10 to 1. The other allows approved clinical experience to be obtained with a registered nurse preceptor rather than limiting it to that provided under direct supervision of qualified faculty.

Numerous style and grammar changes also are made.

- A) Types of small businesses, small municipalities and not for profit corporations affected: Those employing licensed or registered nurses and those providing education programs for nurses.

- B) Reporting, bookkeeping or other procedures required for compliance: Applicants who are exempt from taking the CGFNS examination will be required to submit a copy of the evaluation of nursing education credentials submitted by a Department-approved nursing credentialing evaluation service. Nursing education programs desiring to make a major revision to the curriculum will be required to submit to the Department 15 copies, instead of the current 10 copies, of the proposed changes.

- C) Types of professional skills necessary for compliance: Nursing skills are necessary for licensure.

The completed desk review report will be sent directly to the entity, with a copy to appropriate Department regional staff.
- e) Department regional staff are responsible for reviewing the recommendations contained in the desk review report and providing assistance as necessary to the entity in follow-up on the recommendations made. The desk review report may contain recommendations for contract or budget revisions which must be acted upon by the regional staff.

One exit must be a door that opens directly to the outside (without traversing any other level of the home) or a protected exit, as defined in Section 406.2, via a door or stairway which allows unobstructed travel directly to the outside of the building at street or ground level. In addition, specific requirements have been regarding the dimensions of windows used as second exits and the placement of permanently affixed, sturdy ramps or stairs below windows used as second exists.

Section 406.8(a)(16) - The requirements for the disaster evacuation plan have been modified to require that the plan must be in writing and must specify exits from every area of the home used for child care.

Section 406.8(j) - The prohibition on smoking was clarified to state that no smoking is prohibited in any area of the home in which day care services are provided while day care children are on the premises of the home.

Section 406.8(k) - This subsection has been modified specifically to require that the licensee be certified in the Heimlich maneuver and infant-child CPR. Day care homes which accept children eight years of age and older must also be certified in adult CPR. Currently licensed day care homes have one year from the effective date of the standards to obtain their certification. New license applicants must be certified in the Heimlich maneuver and CPR before the license or permit is granted.

Section 406.22(c) - The requirement for the sleeping position of infants has been changed to reflect the 1992 recommendation of the American Academy of Pediatrics. Children who cannot turn over alone are to be placed on their backs or sides, unless contraindicated by a physician.

The definition of "primary basement exit" was removed from Section 408.5. A definition of "protected exit from a basement" was added to Section 408.5.

Section 408.30(a)(6) - The requirement for inspection of wood-burning stoves or fireplaces has been limited to those instances when the stove or fireplace is used during the hours that day care services are being provided. The day care provider must obtain a written statement certifying the safety of the wood-burning stove or fireplace from the Office of the State Fire Marshal or local agencies designated by the Office of the State Fire Marshal to conduct inspections on its behalf. Certifications from building inspectors, heating and ventilating contractors, and local fire inspectors which have not been designated by the Office of the State Fire Marshal will no longer be accepted. In addition, the Department is requiring these statements upon initial application for licensure and each subsequent license renewal. The proposed requirement for inspection of the furnace by a heating and ventilating contractor has been removed.

NOTICE OF ADOPTED AMENDMENTS

- Section 408.30(a)(7) - Group day care homes which are located in a building other than a one or two-family dwelling (apartment buildings, condominiums, triplexes, etc.) may accept children under 30 months of age only in those areas approved by the Office of the State Fire Marshal or local agencies authorized by the Office of the State Fire Marshal to conduct inspections on its behalf. Inspections conducted by local fire inspectors which have not been authorized by the Office of the State Fire Marshal will no longer be accepted.
- Section 408.30(a)(9) - The requirements for exiting when the basement area is used for day care have been changed. All basements used for day care must have two exits. One exit must be a door that opens directly to the outside (without traversing any other level of the home) or a protected exit, as defined in Section 408.5, via a door or stairway which allows unobstructed travel directly to the outside of the building at street or ground level. In addition, specific requirements have been added regarding the dimensions of windows used as second exits and the placement of permanently affixed, sturdy ramps or stairs below windows used as second exits.
- Section 408.30(c) - The prohibition on smoking was clarified to state that no smoking is prohibited in any area of the home in which day care services are provided while day care children are on the premises of the home.
- Section 408.30(p) - The requirements for the disaster evacuation plan have been modified to require that the plan must be in writing and specify exits from every area of the home used for child care.
- Section 408.45(k) - The Department proposed amendments to this subsection comparable to that proposed in 89 Ill. Adm. Code 406, Licensing Standards for Day Care Homes to require that the licensee must be certified in the Heimlich maneuver and infant-child CPR. However, after considering the public comment received and the recommendation from the Joint Committee on Administrative Rules, the Department agrees that the requirements in Section 408.35 regarding training in First Aid, the Heimlich maneuver, and CPR were sufficient to accomplish the desirable safety level. Therefore, the proposed amendments to Section 408.45 were withdrawn.
- Section 408.65(e) - The requirement that group day care homes which accept more than twelve children under 12 years of age receive a fire clearance will remain as a requirement. The Office of the State Fire Marshal or local agencies authorized by the Office of the State Fire Marshal to conduct inspections on its behalf must inspect the group day care home and approve it for acceptance of the expanded capacity.
- Section 408.105(c) - The requirement for the sleeping position of infants has been changed to reflect the 1992 recommendation of the American

SUBPART C: ELECTRIC SERVICE RELIABILITY POLICY

Section 410.410 Purpose of Subpart C

The Illinois Commerce Commission ("Commission") has designed the electric service reliability policy to establish:

- Reporting requirements to help the Commission gather information on electric service reliability for each electric utility in the State of Illinois; and
- A procedure for review of information and data on electric service reliability to determine if the Commission should adopt electric service reliability standards and, if so, the appropriate provisions to include in such standards.

Section 410.420 Definitions of Terms in Subpart C

For purposes of this Subpart, the following definitions shall apply:

- "Customer" is a dwelling, business, or other location where electric service is provided. If more than one billing account exists at one location (e.g., two tenants at the same address), each active billing

SUBPART C: ELECTRIC SERVICE RELIABILITY POLICY

ILLINOIS COMMERCE COMMISSION

NOTICE OF ADOPTED AMENDMENTS

a) account is considered a customer. A customer can have one or more meter points (or service points) at a given location. If multiple meter points (or service points) exist at the location, interruption of any meter point (or service point) constitutes an interruption to the customer.

b) "Distribution circuit interruption" is an interruption originating at a point which is between the circuit interrupting device at the substation and the distribution transformer.

c) "Electric service" means the availability of electric power at the point of connection between utility equipment and customer equipment.

d) "Electric utility" or "utility" means a public utility, as defined by Section 3-105 of the Public Utilities Act ("Act") [220 ILCS 5/3-105], providing electric service to customers in Illinois.

e) "Interruption" means the loss by one or more customers of electric service for a period longer than one minute in duration and requiring human intervention by the utility to restore electric service. This definition specifically excludes occurrences of the loss of electric service when automatic switches, automatic line reclosing devices, or other automatic utility devices successfully restore electric service. In addition, the term "interruption" shall not include the following:

- 1) Interruptions intentionally initiated by a utility and affecting only those customers taking electric service pursuant to the provisions of an interruptible service tariff or contract approved by the Commission;
- 2) Interruptions intentionally initiated by a utility for nonpayment of a bill and according to the provisions of Sections 8-201, 8-202, 8-203, 8-204, 8-205 and/or 8-206 of the Act, and 83 Ill. Adm. Code 280;
- 3) Interruptions intentionally initiated by a utility due to tampering with service equipment;
- 4) Interruptions intentionally initiated by a utility due to its being denied access to service equipment located on the affected customer's private property;
- 5) Interruptions intentionally initiated by a utility due to hazardous conditions located on the affected customer's private property (such as a fire);
- 6) Interruptions intentionally initiated by a utility due to a request by the affected customer; and
- 7) Interruptions intentionally initiated by a utility due to a request by a valid law enforcement agency, fire department, or other governmental agency responsible for public welfare. In addition, scheduled interruptions initiated by a utility for repair or maintenance shall not be included among the interruptions used to calculate the reliability indices. For all other purposes under this Reliability Policy, including, but not limited to, the reporting requirements under Section 410.460, the term "interruption" shall include scheduled interruptions initiated by a utility for repair or maintenance.

NOTICE OF ADOPTED AMENDMENTS

- f) "Interruption duration" means a period of time measured to the nearest one-minute increment, which starts when a utility is notified or becomes aware of an interruption, unless a utility can determine a more precise estimate of the actual starting time of an interruption, and ends when a utility restores electric service.
- g) "Operating Area" means the utility's internal and then most current geographical segregation of its service territory for its electrical transmission and distribution operations.
- h) "Reliability Indices" are as follows:
- 1) System Average Interruption Frequency Index (SAIFI) is the average number of interruptions per customer during the year. It is calculated by dividing the total annual number of interruptions by the average number of customers served during the year.
 - 2) Customer Average Interruption Duration Index (CAIDI) is the average interruption duration for those customers who experience interruptions during the year. It is calculated by dividing the annual sum of all customer interruption durations by the total number of interruptions.
 - 3) Customer Average Interruption Frequency Index (CAIFI) is the average number of interruptions for those customers who experience interruptions during the year. It is calculated by dividing the total annual number of interruptions by the total number of customers affected by interruptions. In determining the total number of customers affected, each customer is counted only once regardless of the number of interruptions that the customer may have experienced during the year.
- CAIFI = $\frac{\text{Sum of all Interruptions Durations}}{\text{Number of Interruptions}}$
- i) "Worst-performing circuits" are those circuits which, for each reliability index, are among the one percent of all circuits in an operating area (or at least one circuit for each reliability index) with the highest achieved values (lowest performance levels) for the reliability index. For the purpose of identifying worst-performing circuits, only distribution circuit interruptions (as defined in Section 410.420(b)) and customers affected by such interruptions shall be considered in calculating the reliability indices.

Section 410.430 Applicability of Subpart C

The electric service reliability policy is applicable to every electric utility, as defined in Section 410.420(d), which serves more than 15,000 customers in Illinois.

(Source: Added at 19 Ill. Reg. 2804, effective

Section 410.440 Reliability Policy

Each utility shall provide service and facilities which, in accordance with Section 8-401 of the Act, are in all respects adequate, efficient, reliable and environmentally safe and which, consistent with these obligations, constitute the least-cost means of meeting the utility's service obligations. Insofar as would be consistent with the utility's obligations to provide efficient, safe and least-cost service, each utility shall strive to prevent interruptions of electric service and, when such interruptions occur, restore electric service within the shortest reasonable time.

APR 01 1995)

Section 410.450 Record-Keeping Requirements

a) Required records. Except as provided in subsection (b) below, utilities shall maintain, for the most recently preceding five year period, the following records:

1) Records sufficient to determine a history of electric service interruptions experienced by each customer at the customer's current location. The records shall be sufficient to determine the following information for each interruption:

- a) Starting date;
- b) Starting time;
- c) Interruption duration;

d) Cause;

e) Operating area of the affected circuit(s);

f) Circuit number(s) of the affected circuit(s);

g) Number of customers affected;

h) Service account number of each customer affected; and

i) Address of each affected customer location.

2) Records showing, for each circuit, the total number of customers served by the circuit at the end of each year,

b) Periods for which records are not required. Utilities need not maintain records reflecting the information identified in subsection

ILLINOIS COMMERCE COMMISSION

NOTICE OF ADOPTED AMENDMENTS

(a) above, for any period prior to calendar year 1994. In addition, any utility which, as of January 1, 1994, does not have the technical capability to collect and record some or all of the information identified in subsection (a) above, need not maintain records reflecting such information for any period prior to January 1, 1999.

Section 410.460 Notice and Reporting Requirements

a) Telephone or facsimile notice. A utility must provide notice by telephone or by facsimile transmission to the Consumer Services Division of the Commission when any single event (e.g., storm, tornado, equipment malfunction, etc.) causes interruptions for 10,000 or more of the utility's customers for three hours or more. After such interruptions have continued for three hours, a utility must provide notice within one hour when the notice would be provided during normal business hours, or within the first hour of the next business day. To the extent that data and information are known, such notice shall include the following:

1) A reasonable estimate of the number of customers the interruption affects;

2) Starting date;

3) Starting time;

4) Interruption duration;

5) Location, described as precisely as possible in generally recognized and geographically oriented terms such as street address, subdivision, or community;

6) Cause;

7) The date and time when the utility expects to restore electric service; and

8) The name and telephone number of a utility representative the Commission Staff can contact for more information about the interruption.

b) Annual report. On or before June 1 of each year, each utility shall file with the Chief Clerk of the Commission an Annual Report which includes the following information:

1) A general assessment of electric service reliability in the utility's service territory. (The assessment shall include a review of programs the utility uses to provide reliable service; the cost of such programs; a description of new programs or changes to existing programs which the utility is considering for the future; and any other information the utility deems relevant to electric service reliability in its service territory);

2) A table showing the achieved level of each of the reliability indices for each operating area of the utility for the preceding calendar year (provided, however, that for any reporting period

ILLINOIS COMMERCE COMMISSION

NOTICE OF ADOPTED AMENDMENTS

- commencing before April 1, 1998, utilities will not be required to report the CAIFI reliability index as defined in Section 410.420(h)(3));
- 3) A list showing the worst-performing circuits for each operating area of the utility. (The designation of circuits as "worst-performing circuits" shall not, in and of itself, be deemed to constitute a violation of the Act or any Commission order, rule, direction or requirement.);
 - 4) A statement of the operating and maintenance history of circuits designated as worst-performing circuits; a description of any action taken or planned to improve the performance of any such circuit (which shall include information concerning the cost of such action); and a schedule for completion of any such action. (The utility may decide, based on cost considerations or other factors, that it should take no action to improve the performance of one or more circuits designated as worst-performing circuits. If the utility decides to take no action to improve the performance of one or more circuits designated as worst-performing circuits, the utility shall explain its decision in its Annual Report.);
 - 5) A discussion of the status of actions which the utility indicated in prior Annual Reports that it would take to improve electric service reliability; and
 - 6) The name, address and telephone number of a utility representative who can be contacted for additional information regarding the Annual Report.
- c) Customer report. A utility shall, upon request made by a customer or the Consumer Services Division of the Commission, provide to the customer and/or the Consumer Services Division, within thirty days after the request, a report on all interruptions which the customer making the request or subject to the Consumer Service Division's request has experienced at the customer's current service location during the most recently preceding five calendar years. The report shall identify for each interruption the information specified in Section 410.450(a)(1)(A)-(D). Notwithstanding the provisions of this subsection, a utility is not required to report data pursuant to this section which Section 410.450(b) does not require a utility to maintain. This subsection does not alter the provisions of 83 Ill. Adm. Code 200 and 280 which relate to informal and formal complaint procedures.
- d) Staff Report. On or before June 1, 2000 and June 1 of each succeeding year, each utility shall submit to the Program Director of the Consumer Services Division of the Commission a report which includes the following information:
- 1) A list showing the 0.1 percent of the utility's customers or 100 customers, whichever is smaller, with the largest number of interruptions during the prior year. (The list shall include the number of interruptions experienced by each customer, and

ILLINOIS COMMERCE COMMISSION

NOTICE OF ADOPTED AMENDMENTS

- identify the circuit involved for each customer by a unique circuit number assigned by the utility. Each customer included in such a list shall be identified by a unique number assigned by the utility and not that customer's name and/or account number.); and
- 2) A list showing the 0.1 percent of the utility's customers or 100 customers, whichever is smaller, with the largest number of interruptions during the prior year. (The list shall include the number of interruption duration hours experienced by each customer, and identify the circuit involved for each customer by a unique circuit number assigned by the utility. Each customer included in such a list shall be identified by a unique number assigned by the utility and not that customer's name and/or account number.);
- e) For any reporting period commencing before April 1, 1998, if the actual value of any component needed to compute the information required by subsections (b)(2) and/or (b)(3) above is not available, utilities shall use reasonable estimates of such components. For any reporting period commencing after April 1, 1998, utilities may rely upon reasonable estimates of any components needed to compute the information required by subsections (b)(2), (b)(3), (c) and/or (d) above in the event that weather-related interruptions or other circumstances render the use of actual data impracticable or cost-ineffective. When a utility relies upon such reasonable estimates, the utility shall identify the data which is estimated data and explain the circumstances requiring the use of estimated data. Upon request of the Commission Staff or a customer, the utility also shall furnish an explanation of the method or methods used to generate the estimated data.

- In adhering to the interruption recordkeeping and reporting requirements set forth in Section 410.450 and Section 410.460, each utility shall classify and report on the cause of each interruption using the cause categories and interruption code descriptions given in Table A of this Part.

reliability standards and, if so, the appropriate provisions for such standards. In determining whether to adopt electric service reliability standards and, if so, the appropriate provisions for such standards, the Commission shall, at a minimum, consider the following:

- 1) Information submitted pursuant to Section 410.460;
- 2) The nature and cost of programs that utilities have designed to maintain and improve electric service reliability;
- 3) The nature and cost of the utilities' interruption data record-keeping and reporting capabilities;
- 4) Information developed from surveys designed to learn whether customers believe that utilities should improve the level of electric service reliability and, if so, whether customers are willing to pay rates which reflect the associated costs; and
- 5) Testimony on the subject of electric service reliability submitted in Commission proceedings.

b) The Commission may elect to initiate an investigation of a utility to determine whether the utility provides electric service consistent with the reliability policy set forth in Section 410.440. Based on the record developed in such an investigation, the Commission may enter an order requiring a utility to take such corrective action as the Commission deems necessary to improve the electric service reliability of the utility.

Section 410.490 Modification or Exemption

- a) Any utility may file an application requesting modification of or exemption from any Section of this Subpart as such Section applies to the utility filing the application. For good cause shown, the Commission may grant such a request for modification or exemption. A petition for exemption or modification shall be filed pursuant to § 83 Ill. Adm. Code 200 and shall set forth specific reasons and facts in support of the requested exemption or modification.
- b) In determining whether good cause has been shown, the Commission shall consider, among other things:
 - 1) The extent to which circumstances beyond the control of the utility have made compliance with the applicable Section extremely difficult;
 - 2) Whether the utility has made a good faith effort to comply with the applicable Section in a timely fashion; and
 - 3) Whether other information, which the utility would provide if the waiver is granted, permits the Commission Staff to review the subject filing in a complete, timely and meaningful manner.

112.306	Amendment	January 27, 1995 (19 Ill. Reg. 804)

- 15) Summary and Purpose of Amendments: The purpose of the Jobs Opportunities and Basic Skills Training (JOBS) program is to assure that needy individuals and families obtain education, training and employment that will help avoid long-term welfare dependence. JOBS offers a wide variety of intensive activities aimed at assisting the participant to acquire the education and skills needed to meet the demands of the current labor market as well as in the future. JOBS focuses on enhancing the long-term employability of AFDC clients by assessing the individual capabilities of each program participant, allowing to the greatest extent possible the individual's preferences in completing the employability plan and matching the participant to a suitable activity.

Pursuant to the provisions of Title II of the Family Support Act of 1988, Public Law 100-485 and 45 CFR 250.33, this rulemaking changes the participation requirements for the Unemployed Parents Work Experience component of JOBS. These amendments allow both parents in an AFDC-U case to participate in the Unemployed Parents Work Experience component unless one or both parents are exempt. As a result of this rulemaking, parents in the AFDC-U case may be required to participate in the Unemployed Parents Work Experience component unless they are exempt under the exemption criteria listed in Section 112.71.

SUBPART C: JOB OPPORTUNITIES AND BASIC SKILLS TRAINING (JOBS) PROGRAM

Section 112.70 Participation Requirements for JOBS

Sections 112.70 through 112.83 describe the Job Opportunities and Basic Skills Training (JOBS) Program employment, education, and training participation requirements for AFDC clients. The purpose of JOBS is to assure that needy individuals and families obtain education, training and employment that will help avoid long-term welfare dependence. JOBS will focus on enhancing the individual employability of AFDC clients by assessing the individual capabilities of each program participant, allow to the greatest extent possible the individual's preferences in completing the employability plan and matching

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

the participant to a suitable activity. The program will offer a wide variety of intensive activities aimed at assisting the participant to acquire the education and/or skills needed to meet the demands of the current labor market as well as in the future. Upon completion of the individual's education and/or training all participants will seek employment as part of the employability plan. To the extent possible, the program will have as its first priority individuals, whether exempt or non-exempt, who volunteer to participate. The Department will decide the categories of individuals who can participate in JOBS based upon budget analysis of competent costs and supportive service costs for each category of individuals and in keeping with Federal Jobs participation contracts for program services. In areas where the Department has contracted requirements. The program offered in different counties of the State may vary depending on the extent that resources are available. Program services may be provided directly by the Illinois Department of Public Aid or through contract as allowed by Federal law. References to the Department or staff of the Department shall include contractors when the Department has entered into contracts for program services. In areas where the Department has contracted with community colleges, the program is called Opportunities. References to JOBS and JOBS participants shall include Project Chance and Project Chance participants and Opportunities participants.

- a) Both exempt and non-exempt individuals receiving AFDC may participate in JOBS when State resources permit. All non-exempt individuals receiving AFDC are required to participate in JOBS only to the extent there are resources available to serve individuals other than volunteers. Participation in component activities may be mandated for non-exempt individuals. Parents ~~one-parent~~ in the AFDC-U case ~~may be~~ required to ~~must~~ participate in the Unemployed Parent Work Experience component unless they are ~~hereafter~~ exempt under one of the exemption criteria (see Section 112.11). ~~If one-parent-is-exempt--the--other parent--must--participate--in--the--Unemployed--Parent--Work--Experience component--unless--hereafter--is--also--exempt?~~ Participation may be limited for non-exempt and exempt individuals based on component cost or available funds for supportive services for participating individuals. Dependent children under 16 who are not parents cannot participate in JOBS unless they are participating in the Youth Employment and Training Initiative.
- b) JOBS services will be offered to exempt and non-exempt individuals who wish to volunteer to participate. Volunteers will be served first. However, participation may be mandated for non-exempt individuals if needed to serve adequate numbers in the target populations, or if state resources are available to provide services beyond this volunteer population. Exempt and non-exempt individuals who volunteer to participate become a program participant upon completion of the Initial Assessment, development of the employability plan, and assignment to a component (see Section 112.74). Participation may be limited for volunteers if state resources are insufficient. A waiting list will be established by geographical area to serve those on waiting lists in each geographical area. Volunteers who fail to attend the orientation and/or Initial Assessment meetings will not be

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

sanctioned. However, non-exempt volunteers who attend the orientation meeting and become program participants by completing the Initial Assessment, development of the employability plan, and assignment to a component may be sanctioned if they thereafter do not meet program requirements without good cause (see Section 112.79). Non-exempt individuals who are mandated to participate but fail to attend the orientation meeting or to complete the Initial Assessment without good cause may be sanctioned.

- c) If State resources are insufficient to provide component and supportive service costs for JOBS participants, child care, if needed, will be provided when the education or training activity for non-JOBS individuals in JOBS areas is approved based on the same criteria, except the criterion that requires individuals to participate an average of 20 hours each week, that is used for JOBS individuals described in Section 112.78 (See Section 112.3701). Non-JOBS individuals will request child care using the Department of Children and Family Services request for child care services and registration. JOBS participation may be mandated to the extent resources allow and to the extent needed to meet Federal program requirements and maintain a program that is balanced between education and training services and placement sources for job ready individuals.
- d) JOBS resources will be targeted to the following groups:

- 1) current recipients who have received AFDC for any 36 of the preceding 60 months;
 - 2) custodial parents under age 24 who have not completed high school or have little or no work experience within the preceding year; or
 - 3) members of families in which the youngest child is within two years of being ineligible for AFDC because of age.
- e) A custodial parent under age 20 who has not completed a high school education (or its equivalent) is not exempt from participation in educational activities directed toward obtaining a high school diploma (or equivalent) because of the age of the youngest child (see Section 112.71). Full-time participation (as defined by the educational provider) is required even if the individual's youngest child is under age six. This requirement is conditioned upon provision to the young parent of all necessary child care services.
- f) A custodial parent who is age 16 or 17 may be excused from educational activities directed toward obtaining a high school diploma (or equivalent) if the parent is unable to participate due to his or her own mental or physical illness or that of his or her spouse or child, is homeless, or is experiencing family or personal crisis.
- g) A custodial parent who is age 18 or 19 may participate in training or work activities instead of educational activities if one of the following conditions is met:
- 1) prior to any assignment of the parent to educational activities, it is determined, based on an educational assessment and the employment goal established in the parents' employability plan,

DEPARTMENT OF PUBLIC AID

that participation in educational activities is not appropriate; or

- 2) the parent fails to make good progress in successfully completing educational activities, and it is determined based on an individual assessment, and the employment plan that the educational activity is not appropriate.

- i) Individuals age 20 or over who have not completed a high school education (or equivalent) must participate in educational activities consistent with the employment goal established in the employability plan unless:
 - 1) the individual reads at the 9.9 grade level; or
 - 2) the long-term employment goal identified in the individual's employability plan does not require a high school diploma (or equivalent); or
 - 3) the individual reads below the 9.9 grade level, and it is determined based on the individual's assessment that the individual does not possess the aptitude to progress in an educational program and does not wish to participate in an educational program.
- j) A parent or other relative personally caring for a child under age six will not be required to participate in JOBS for more than 20 hours per week except as specified in subsection (f) above.
- k) Children in AFDC cases who are ages 14-18 and attend school may be required to participate in the Youth Employment and Training Initiative under the Project Chance Program.

14) Are there any Amendments pending on this Part? Yes

Sections	Proposed Action	Illinois Register Citation
113.253	Amendment	January 27, 1995 (19 Ill. Reg. 815)
113.260	Amendment	January 27, 1995 (19 Ill. Reg. 815)

15) Summary and Purpose of Amendments: These amendments implement provisions of OBRA '93 (P.L. 103-66) relating to the treatment of revocable and irrevocable trusts and the transfer of assets for persons residing in long term care facilities. This rulemaking also establishes the procedures used to determine the value of a life estate and remainder interest at the time the property is liquidated.

As a result of these amendments, in determining the value of the life estate and remainder interest of the amount received, the Department will apply the values listed in 89 Ill. Adm. Code 120.Table A. The life estate and remainder interest are based on the age and sex of the person at the time the property is liquidated and the corresponding values described in 89 Ill. Adm. Code 120.Table A. This rule change also repeals provisions for property transfers for applications filed on or after October 1, 1989.

Companion amendments were also proposed in Sections 120.346, 120.347, 120.380, 120.386 and 120.387.

144.275 Amendment January 17, 1995 (19 Ill. Reg 1717)

15) Summary and Purpose of Amendments: These revisions to the Staff Intensity Scale of Maladaptive Behaviors found in Table B are necessary because the information contained in this Section is not complete. Table A, which contains companion material to Table B, addresses 24 categories of maladaptive behaviors sometimes demonstrated by persons with developmental disabilities. Table B is the intensity scale which is utilized as a rating system by health facility surveyors, to evaluate the 24 behavior areas found in Table A. However, Table B contains only 16 of these areas of maladaptive behaviors because eight of the behavior areas were inadvertently omitted when Section 144.Table B was previously adopted. These amendments are intended to correct that area.16) Information and questions regarding these Adopted Amendments shall be directed to:

12. Section 120.386(e) has been revised as follows:

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

A separate penalty period is determined for each month in which a transfer or transfers do not meet the provisions of subsection (c). Each penalty period is the lesser of the number of months the total uncompensated amount of the transferred assets would meet the monthly cost of long term care (private rate) at the facility or 30 months.

13. Section 120.386(f) has been added as follows:

14. Section 120.387(d) has been revised as follows:

A transfer of assets occurs when a resident of a long term care facility or the resident's spouse buys, sells or gives away real or personal property or changes (for example, change from joint tenancy to tenancy in common) the way property is held. Changing ownership of property to a life estate interest is an asset transfer (the value of the life estate and remainder interest is determined as described at Section 120.380 and 89 Ill. Adm. Code 113.140). For assets held in joint tenancy, tenancy in common or similar arrangement, a transfer occurs when an action by any person reduces or eliminates the person's ownership or control of the asset. A transfer occurs when an action or actions are taken which would cause an asset or assets not to be received (for example, waiving the right to receive an inheritance).
15. Section 120.387(e)(13) was added as follows:

13) the transfer was to an annuity and the expected return on the annuity is commensurate with the estimated life expectancy of the person. In determining the estimated life expectancy of the person, the Department shall use the life expectancy table described in Section 120.Table B.

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

14) Are there any Amendments pending on this Part? No

15) Summary and Purpose of Amendments: These amendments implement provisions of OBRA '93 (P.L. 103-66) relating to the treatment of revocable and irrevocable trusts and the transfer of assets for persons residing in long term care facilities. This rulemaking also establishes the procedures used to determine the value of a life estate and remainder interest at the time the property is liquidated.

Treatment of Trusts

These amendments define a trust as any arrangement in which a grantor transfers property to a trustee or trustees with the intention that it be held, managed or administered by the trustee or trustees for the benefit of the grantor or designated beneficiaries. A trust also includes any legal instrument or device that is similar to a trust, including an annuity.

A person is considered to have established a trust if assets of the person were used to form all or part of the principal of the trust and the trust is established (other than by will) by any of the following:

- 1) the person;
- 2) the person's spouse; or
- 3) any other person, including a court or administrative body, with legal authority to act on behalf of or at the direction of the person or the person's spouse.

For revocable trusts, the Department will:

- 1) treat the principal as an available asset;
- 2) treat as income, payments from the trust that are made to or for the benefit of the person; and
- 3) treat any other payments from the trust as transfers of assets by the person (subject to the provisions of Section 120.387).

For irrevocable trusts, the Department will:

- 1) treat as an available asset the amount of the trust from which payment to or for the benefit of the person could be made;
- 2) treat as income payments from the trust that are made to or for the benefit of the person;

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

- 3) treat any other payments from the trust as transfers of assets by the person (subject to the provisions of Section 120.387); and
- 4) treat as a transfer of assets by the person the amount of the trust from which no payment could be made to the person under any circumstances (subject to the provisions of Section 120.387). The date of the transfer is the date the trust was established or, if later, the date that payment to the person was foreclosed. The amount of the trust is determined by including any payments made from the trust after the date that payment to the person was foreclosed.

Value of Life Estate and Remainder Interest

As a result of these amendments, in determining the value of the life estate and remainder interest of the amount received, the Department will apply the values listed in 89 Ill. Adm. Code 120.Table A. The life estate and remainder interest are based on the age of the person at the time the property is liquidated and the corresponding values described in 89 Ill. Adm. Code 120.Table A.

Property Transfers Occurring On or After August 11, 1993 for Residents of Long Term Care Facilities

These amendments establish that a transfer of assets occurs when a resident of a long term care facility or the resident's spouse buys, sells or gives away real or personal property or changes the way property is held. For assets held in joint tenancy, tenancy in common or similar arrangement, a transfer occurs when an action by any person reduces or eliminates the persons ownership or control of the asset. This rulemaking also sets out the criteria used to determine that a transfer is allowable.

If it is determined that the transfer or transfers do not meet certain provisions, the resident will be subject to a period of ineligibility for long term care services. If otherwise eligible, residents remain entitled to other covered medical services.

A separate penalty period is determined for each month in which a transfer or transfers do not meet the specified provisions. Each penalty period is the number of months equal to the total uncompensated amount of assets transferred during a month divided by the monthly cost of long term care (private rate) at the facility. The penalty period begins with the month of the transfer or transfers unless the transfer or transfers occurred during a previous penalty period. If so, the penalty period begins with the month following the month the previous penalty period ends.

For transfers by the community spouse that result in a period of ineligibility for long term care services as described in Section

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

120.387(g) and the community spouse enters a long term care facility and becomes otherwise eligible for assistance, the Department will divide any remaining period of ineligibility for long term care services equally between the spouses.

SUBPART H: MEDICAL ASSISTANCE - NO GRANT

Section 120.346 Medicaid Qualifying Trusts

a) This Section applies to trusts established prior to August 11, 1993.
 b) The maximum amount of payment permitted under the terms of a Medicaid qualifying trust (described in subsection (c) below) shall be considered in determining eligibility for medical assistance, whether or not the maximum amount was distributed to the individual. The maximum amount is considered in determining eligibility for medical assistance, whether or not the trust is irrevocable or established for reasons other than to qualify for Medicaid.

c) A Medicaid qualifying trust is a trust, or similar legal device, established (other than by will) by an individual (or an individual's spouse) under which the individual may be the beneficiary of all or part of the payments from the trust and the distribution of such payments is determined by one or more trustees who are permitted to exercise any discretion with respect to the distribution to the individual.

Section 120.347 Treatment of Trusts

- a) This Section applies to trusts established on or after August 11, 1993.
- b) A trust is any arrangement in which a grantor transfers property to a trustee or trustees with the intention that it be held, managed or administered by the trustee or trustees for the benefit of the grantor or designated beneficiaries. A trust also includes any legal instrument or device that is similar to a trust, including an annuity.
- c) A person shall be considered to have established a trust if assets of the person were used to form all or part of the principal of the trust and the trust is established (other than by will) by any of the following:
- 1) the person;
 - 2) the person's spouse; or
 - 3) any other person, including a court or administrative body, with legal authority to act on behalf of or at the direction of the person or the person's spouse.

d) This Section does not apply to the following trusts:

- 1) an irrevocable trust containing assets of a disabled person (as described in Section 120.314) under age 65 that is established by a parent, grandparent, legal guardian or court for the benefit of the disabled person, if language contained in the trust stipulates that any amount remaining in the trust (up to the amount expended by the Department on medical assistance) shall be paid to the Department upon the death of the person. This exclusion continues after the person reaches age 65 as long as the person continues to be disabled but any additions made by the person to the trust after age 65 will be treated as a transfer of assets under 89 Ill. Adm. Code 120.387. If the trust contains proceeds from a personal injury settlement, any Department charge as described at 89 Ill. Adm. Code 102.260 must be satisfied in order for the trust to be excluded under this subsection; or
- 2) an irrevocable trust containing assets of a disabled person (as described in Section 120.314) that is established and managed by a non-profit association that pools funds but maintains a separate account for each beneficiary that is established by a parent, grandparent, legal guardian or court for the benefit of the disabled person, if language contained in the trust stipulates that any amount remaining in the trust (up to the amount expended by the Department on medical assistance) that is not retained by the trust shall be paid to the Department upon the death of the person.

- e) Subsections (f) and (g) below apply to the portion of the trust attributable to the person and without regard to:
- 1) the purpose for establishment of the trust;
 - 2) whether the trustee has or exercises any discretion under the

trust; or

3) whether there are any restrictions on distributions or use of distributions from the trust.

f) For revocable trusts, the Department shall:

1) treat the principal as an available asset;

2) treat as income payments from the trust that are made to or for the benefit of the person; and

3) treat any other payments from the trust as transfers of assets by the person (subject to the provisions of Section 120.387).

g) For irrevocable trusts, the Department shall:

1) treat as an available asset the amount of the trust from which payment to or for the benefit of the person could be made;

2) treat as income payments from the trust that are made to or for the benefit of the person;

3) treat any other payments from the trust as transfers of assets by the person (subject to the provisions of Section 120.387); and

4) treat as a transfer of assets by the person the amount of the trust from which no payment could be made to the person under any circumstances (subject to the provisions of Section 120.387).

The date of the transfer is the date the trust was established or, if later, the date that payment to the person was foreclosed.

The amount of the trust is determined by including any payments made from the trust after the date that payment to the person was foreclosed.

(for example, assets) is liquidated. In determining the value of a life estate and remainder interest based on the value of the property at the time the life estate is established or on the amount received when the property is liquidated, the Department shall apply the values described in Section 120, Table A. The life estate and remainder interest are based on the age of the person at the time the life estate in the property is established and at the time the property is liquidated and the corresponding values described in Section 120, Table A.

Section 120.386 Property Transfers Occurring On or Before August 10, 1993

- a) Applicability
 - 1) The provisions for the transfer of property (for example, assets) in this Section apply to residents of long term care facilities who apply for Medicaid on or after October 1, 1989, regardless of the date of the transfer and to residents whose application for Medicaid is filed prior to October 1, 1989, if the transfer occurs on or after October 1, 1989.
 - 2) Transfers of property disregarded as a result of payments made by a Long-Term Care Partner Insurance Policy (as described in 50 Ill. Adm. Code 2018) are not subject to the provisions of subsection (b), (c), and (d) below of this Section.
 - 3) The provisions for the transfer of property (for example, assets) in this Section apply to a resident's spouse when the resident applies for Medicaid on or after June 1, 1991, if the transfer occurs on or after December 20, 1989, and to a resident's spouse when the resident's application for Medicaid is filed prior to June 1, 1991, if the transfer occurs on or after June 1, 1991.
 - 4) The provisions for the transfer of property (for example, assets) in this Section do not apply to eligibility determinations for individuals who reside in the community.
- b) A transfer of assets occurs when a resident of a long term care facility or the resident's spouse buys, sells or gives away real or personal property or changes (for example, change from joint tenancy to tenancy in common) the way property is held. Changing ownership of property to a life estate interest is an asset transfer (the value of the life estate and remainder interest is determined by described in Section 120.380 and 89 Ill. Adm. Code 113.140). A transfer occurs when an action or actions are taken which would cause an asset or assets not to be received (for example, waiving the right to receive an inheritance).
- c) A transfer is allowable if:
 - 1) the transfer occurred more than 30 months before the date of

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

- application or more than 30 months before entry into the long term care facility;
- 2) the transfer, by the resident's spouse, occurred prior to December 20, 1989;
 - 3) a fair market value is the price that an article or piece of property might be expected to bring if offered for sale in a fair market. Fair market value is determined by statements obtained from institutions, community members, etc. (e.g. For example, bankers, jewelers, realtors, etc.) recognized as having knowledge of property values;
 - 4) homestead property was transferred to:
 - A) a spouse;
 - B) the individual's child who is under age 21;
 - C) the individual's child who is blind or permanently and totally disabled;
 - D) the individual's brother or sister who has an equity interest in the homestead property and who was residing in the home for at least one year immediately prior to the date the individual entered the facility; or
 - E) the individual's child who provided care for the individual and who was residing in the homestead property for two (2) years immediately prior to the date the individual entered the facility;
 - 5) The transfer by the resident was to the community spouse or to another individual for the sole benefit of the community spouse and the amount transferred does not exceed the Community Spouse Asset Allowance. The Community Spouse Asset Allowance, as of October 1, 1989, is an amount up to but not greater than \$60,000 that the resident may transfer, without affecting eligibility, to the community spouse or to another individual for the sole benefit of the community spouse. As of October 1, 1989, the amount of assets a resident may transfer to his or her community spouse is \$60,000 minus any non-exempt assets of the community spouse. The amount established as the Community Spouse Asset Allowance shall be increased for calendar years after 1989 by the same percentage as the percentage increase in the consumer price index for all urban consumers. The Community Spouse Asset Allowance is subject to the following qualifiers:
 - A) The amount of assets sufficient to provide (the amount of income generated) the Community Spouse Maintenance Needs Allowance (as described in Section 120.61) as determined by a fair hearing; or
 - B) The amount transferred under a court order to the community spouse;
 - 6) the transfer was to the individual's child who is blind or permanently and totally disabled or to another person for the sole benefit of the individual's child;

- 7) the individual intended to transfer the assets for fair market value;
- 8) it is determined that denial of assistance would create an undue hardship. Examples of undue hardship include, but are not limited to, situations in which:
 - A) the resident is mentally unable to explain how the assets were transferred;
 - B) the denial of assistance would force the resident to move from the long term care facility; or
 - C) the individual would prohibit the individual from entering a facility or would prohibit the individual from joining a spouse in a facility that is within close proximity to his/her family;
- 9) the transfer was made exclusively for a reason other than to qualify for assistance. A transfer for less than fair market value is presumed to have been made to qualify for assistance unless a satisfactory showing is made to the Department that the client or spouse transferred the asset exclusively for a reason other than to qualify for assistance;
- 10) the transfer by the resident was to the community spouse and was the result of a court order; or
- 11) ~~the-individual-did-not-consent-to-or-agree-in-the-transfer--for-example--a-joint--bank--account--in--which-monies-are-withdrawn-without-the-permission-of-the-individual--the transfer was to an annuity and the expected return on the annuity is commensurate with the estimated life expectancy of the person. In determining the estimated life expectancy of the person, the Department shall use the life expectancy table described in Section 120. Table B.~~
- d) ~~transfers--of--assets--which--do--not--meet--the--provisions--of--subsection--for--are--considered--as--a--single--transfer--of--the--total--amount--of--assets--with--the--period--of--ineligibility--determined--in--accordance--with--subsection--(c). Section 120.387 Property Transfers Occurring On or After August 11, 1993

- a) The provisions for the transfer of property (for example, assets) listed below apply to residents of long term care facilities, including residents who were living in the community at the time of the transfer, when the transfer occurs on or after August 11, 1993.
 - b) The provisions for the transfer of property (for example, assets) listed below apply to the transfer of property by the resident's spouse in the same manner as if the resident transferred the property.
 - c) The provisions for the transfer of property (for example, assets) listed below do not apply to eligibility determinations for persons who reside in the community.
 - d) A transfer of assets occurs when a resident of a long term care facility or the resident's spouse buys, sells or gives away real or personal property or changes (for example, change from joint tenancy to tenancy in common) the way property is held. Changing ownership of property to a life estate interest is an asset transfer (the value of the life estate and remainder interest is determined as described at Section 120.380 and 89 Ill. Adm. Code 113.140). For assets held in joint tenancy, tenancy in common or similar arrangement, a transfer occurs when an action by any person reduces or eliminates the person's ownership or control of the asset. A transfer occurs when an action or actions are taken which would cause an asset or assets not to be received (for example, waiving the right to receive an inheritance).
- e) A transfer is allowable if:
 - 1) depending on the property transferred, the transfer occurred more than either 60 or 36 months before the date of application or more than either 60 or 36 months before entry into a long term care facility.
 - A) the 60 month period applies to payments from a revocable trust that are not treated as income (as described in Section 120.347) and to portions of an irrevocable trust from which no payments could be made (as described in Section 120.347).
 - B) the 36 month period applies to payments from an irrevocable trust that are not treated as income (as described in Section 120.347) and to any other property transfers not identified in this subsection.
 - 2) a fair market value was received. Fair market value is the price that an article or piece of property might be expected to bring

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

if offered for sale in a fair market. Fair market value is determined by statements obtained from institutions, community members, etc. (for example, bankers, jewelers, reputable realtors, etc.) recognized as having knowledge of property values.

3) homestead property was transferred to:

- A) a spouse;
- B) the person's child who is under age 21;
- C) the person's child who is blind (as described in Section 120.313) or disabled (as described in Section 120.314);
- D) the person's brother or sister who has an equity interest in the homestead property and who was residing in the home for at least one year immediately prior to the date the person entered the facility; or
- E) the person's child who provided care for the person and who was residing in the homestead property for two years immediately prior to the date the person entered the facility.

4) the transfer by the resident was to the community spouse or to another person for the sole benefit of the community spouse and the amount transferred does not exceed the Community Spouse Asset Allowance. The Community Spouse Asset Allowance, as of October 1, 1989, is an amount up to but not greater than \$60,000 that the resident may transfer, without affecting eligibility, to the community spouse or to another individual for the sole benefit of the community spouse. As of October 1, 1989, the amount of assets a resident may transfer to his or her community spouse is \$60,000 minus any nonexempt assets of the community spouse. The amount established as the Community Spouse Asset Allowance shall be increased for calendar years after 1989 by the same percentage as the percentage increase in the consumer price index for all urban consumers. The Community Spouse Asset Allowance is subject to the following qualifiers:

- A) The amount of assets sufficient to provide (the amount of income generated) the Community Spouse Maintenance Needs Allowance (as described in Section 120.61) as determined by a fair hearing; or
- B) The amount transferred under a court order to the community spouse;
- 5) the transfer from the community spouse was to another person for the sole benefit of the community spouse;
- 6) the transfer was to the person's child or to a trust established solely for the benefit of the person's child who is blind (as described in Section 120.313) or disabled (as described in Section 120.314) or to another person for the sole benefit of the person's child;
- 7) the transfer was to a trust established solely for the benefit of a person under age 65 who is disabled (as described in Section

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

120.314).

8) the person intended to transfer the assets for fair market value, it is determined that denial of assistance would create an undue hardship. Examples of undue hardship include, but are not limited to, situations in which:

- A) the resident is mentally unable to explain how the assets were transferred;
 - B) the denial of assistance would force the resident to move from the long term care facility; or
 - C) the individual would be prohibited from joining a spouse in a facility or would prohibit the individual from entering a facility that is within close proximity to his or her family.
 - 10) the transfer was made exclusively for a reason other than to qualify for assistance. A transfer for less than fair market value is presumed to have been made to qualify for assistance unless a satisfactory showing is made to the Department that the client or spouse transferred the asset exclusively for a reason other than to qualify for assistance.
 - 11) the transfer by the resident was to the community spouse and was the result of a court order.
 - 12) the assets transferred for less than fair market value have been returned to the person.
 - 13) the transfer was to an annuity and the expected return on the annuity is commensurate with the estimated life expectancy of the person. In determining the estimated life expectancy of the person, the Department shall use the life expectancy table described in Section 120. Table B.
- F) If a transfer or transfers do not meet the provisions of subsection (e), the resident is subject to a period of ineligibility for long term care services. The penalty period is determined in accordance with subsection (g). If otherwise eligible, residents remain entitled to other covered medical services.
- g) A separate penalty period is determined for each month in which a transfer or transfers do not meet the provisions of subsection (e). Each penalty period is the number of months equal to the total uncompensated amount of assets transferred during a month divided by the monthly cost of long term care (private rate) at the facility.
- h) The penalty period begins with the month of the transfer or transfers unless the transfer or transfers occurred during a previous penalty period. If so, the penalty period begins with the month following the month the previous penalty period ends.
- i) For transfers by the community spouse that result in a period of ineligibility for long term care services as described in subsection (g) and the community spouse enters a long term care facility and becomes otherwise eligible for assistance, the Department shall divide any remaining period of ineligibility for long term care services equally between the spouses.

- Summary and Purpose of Amendments:
- These amendments to the Department's rules concerning provider participation in the Medical Assistance Program, are intended to implement requirements imposed by Public Act 88-554. The new requirements expand prohibitions on participation for vendors who have been terminated or barred from the Program.

Section 140.16, which addresses the termination or suspension of a vendor's eligibility to participate in the Medical Assistance Program, has been amended by the addition of a new provision prohibiting the transfer of a terminated or barred individual's direct or indirect ownership of a vendor, to relatives.

Section 140.32, which specifies participation prohibitions during the period of termination, suspension or barring, has also been amended by similar new language regarding the disallowance of transfers of ownership interests in a vendor to relatives.

Section 140.19 has been amended to require that when a vendor has been terminated a second or subsequent time from the Medical Assistance program, he or she must be barred from participation for at least two years. If the vendor then applies for reinstatement to the Program and is denied by the Department, he or she will be further barred from applying for reinstatement for a period of two years from the date of the denial of the application.

calculation of Inflation Factors:
Inflation factors, for capital equipment projects represent the percentage increase or decrease in the related health care costs from July 1st of the preceding calendar year to July 1st of the year for which the adjustment is to be made. The capital threshold is adjusted utilizing the annualized data from the report year as compared to the preceding year. A growth in costs of five percent during this twelve-month period would result in an inflation factor of 1.05.

the Illinois State Board of Health for use in their evaluation of the model.

The following new sentence was added after the first sentence in Section 1110.2610(d):

All postsurgical recovery care center alternative health care models for the purposes of review shall be considered the establishment of a category of service rather than an addition of beds. Therefore, the 60 day review requirement of 77 Ill. Adm. Code 1130.610(b) for bed projects shall not apply to applications of this type.

Section 1110.2610(d) has been revised to specify that applicants will not be allowed to amend their applications or provide additional documentation during the review process, prior to the initial State Board decision.

A new subsection (e) and Agency Note were added to Section 1110.2610 as follows:

- e) Applications received for the postsurgical care center alternative health care model must be received by the State Agency between 8:30 and 5:00 p.m. in accordance with the following schedule. All applications received by the State Agency not in accord with this schedule shall not be accepted and returned to the applicant.

- 1) projects located in the city of Chicago May 1-12, 1995;
- 2) projects located in Cook county outside the city of Chicago May 1-12, 1995;
- 3) projects located in Kane, Lake and McHenry counties May 1-12, 1995;
- 4) projects located in municipalities as defined in 77 Ill. Adm. Code 1100.750 June 1-12, 1995;
- 5) projects located in rural areas as defined in 77 Ill. Adm. Code 1100.750 June 1-12, 1995;

- 6) If the need for the number of models specified in 77 Ill. Adm. Code 1100.750 has not been met following the completion of State Board review of all applications submitted within the above schedule, the State Board shall not accept subsequent applications for any remaining sites until December 8, 1995.

Agency Note: It is the applicant's responsibility to assure that the application has been received during the prescribed time frames and dates specified.

Section 1110.2630(a) has been revised to read as follows:

Need/Unit Size--Review Criterion

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

The applicant must specify the number of beds to be in the proposed postsurgical recovery care center. The applicant must also document that the proposed number of beds is justified (utilizing the 80% occupancy target) based upon the anticipated number of patients who will utilize the service. Documentation shall consist of: patient identification numbers, ICD 9 Code or procedure type, patient length of stay and referral surgical site for each inpatient surgical case which occurred in surgical referral sites over the last twelve month period that could have received surgical recovery services within the model if it had been available.

Section 1110.2630(b) has been revised to read as follows:

Staffing--Review Criterion

The applicant must document that the postsurgical recovery care center will be a separate and distinct (physically separate and identifiable) facility and have a dedicated nursing staff (i.e., that staff members working a shift are assigned only to cover the model), a medical director and 24 hour seven days a week on call physician coverage by a physician licensed to practice medicine in all of its branches. The on-call physician must be able to be physically present at the model within 15 minutes upon request. Documentation shall consist of: physical layout of the center (i.e., design drawings), identification of the number and type of staff positions dedicated to the model, identification of the facility medical director including a signed commitment to the facility by that person stating a willingness to hold such a position and evidence that the required physician coverage will be accomplished.

Section 1110.2630(c) has been revised to read as follows:

Patient Mix--Review Criterion

The applicant must document that the postsurgical recovery care center is capable of providing recovery care to patients receiving a wide variety of surgical procedures. For the purposes of this rule the following specialties (listing not inclusive of all surgical procedures that can recover in the model) shall be recognized: general surgery; eyes-ears-nose and throat; orthopedic; plastic surgery; ophthalmology; urology; obstetric-gynecology; and gastro-enterology. The applicant must document that anticipated referrals would result in admissions coming from at least three of these surgical specialties and that each of the three specialty groups represents a minimum of 10% of facility admissions totaling at least 30%. Documentation shall consist of a detailed listing of the types of surgical procedures which will be performed for which recovery care will be provided and the protocols as to how recovery

care will be given to each type of surgical patient with details concerning how patient safety will be assured.

In Section 1110.2630(d) the requirement that models be located within a particular travel time from all surgical referral sites has been increased from 15 to 30 minutes and "under normal driving conditions" has been changed to "by medical transport".

The following sentence has been added to the end of Section 1110.2630(d):

The applicant must also document who will have the responsibility for the transfer of patients from the surgical site to the postsurgical recovery care center and provide all transfer protocols which must demonstrate the safe transfer of the surgical patients to the recovery care center from each surgical referral site.

The following has been added after "patients" at the end of Section 1110.2630(d):

and the requirements established by the model for the education of staff in emergency procedures. Each postsurgical recovery care center must document that a crash cart is available on site and that staff trained in cardiac defibrillation are available at all times.

Section 1110.2630(f) has been deleted from the rulemaking.

Section 1110.2640(a) has been revised to specify that the State Board will review all applications instead of only qualified applications as proposed.

In Section 1110.2640(b)(2)(G) a new condition to be considered in the State Board's evaluation of applications has been added as follows:

G) Accreditation of the applicant facility or facilities by JCAHO or AAAHC.---3 Points.

The following has been added at the end of Section 1110.2640(b)(3):

Competing applications within a planning area which have obtained the points necessary for permit consideration shall be evaluated by the State Board to determine which application best implements the goals of the Health Facilities Planning Act and the Alternative Health Care Delivery Act.

The following sentence has been deleted from Section 1110.2650 (a):

If during the course of the model evaluation period an approved provider of the model elects to discontinue the category of service a

replacement provider of the same type may be approved by the State Board.

The last sentence of Section 1110.2650 (a) has been revised to read:

Any alteration, discontinuation of service, or abandonment to the approved category of service during the life of the permit is subject to State Board review.

The following has been added at the end of Section 1110.2650(b):

Charges may be annually adjusted for inflation not to exceed the growth in the health care component of the Consumer Price Index. Various technical, editorial, and grammatical changes have been made in response to recommendations of the Joint Committee on Administrative Rules and the Administrative Code Division.

12) Have all the changes agreed upon by the Agency and the Joint Committee been made as indicated in the agreement letter issued by the Joint Committee?

The Department has made all the changes to which it agreed with the Joint Committee.

13) Will the Rulemaking Replace an Emergency Rule Currently in Effect?

No

14) Are there any other Amendments Pending on this Part?

No

15) Summary and Purpose of Repealer:

The rulemaking creates review criteria, definitions and procedural steps required of an applicant seeking to be designated as a postsurgical recovery care center model. Centers of this type were established as test models under the Alternative Health Care Delivery Act.

SUBPART AA: CATEGORY OF SERVICE REVIEW CRITERIA-POSTSURGICAL RECOVERY CARE CENTER ALTERNATIVE HEALTH CARE MODEL

Section 1110.2610 Introduction

- a) Subpart AA of this Part contains review criteria which pertain to the postsurgical recovery care center alternative health care model category of service. The postsurgical recovery care center alternative health care model category of service is a demonstration program which is authorized by the Alternative Health Care Delivery Act. These postsurgical recovery care center alternative health care model review criteria are utilized in addition to the General Review Criteria contained in Subpart C of this Part and in addition to the Financial and Economic Feasibility Review Criteria contained in 77 Ill. Adm. Code 1120. This Subpart also contains the methodology the State Board shall utilize in evaluating competing applications, if any, for the establishment of any postsurgical recovery care center alternative health care models.
- b) A postsurgical recovery care center alternative health care model must obtain a certificate of need permit to establish the category of service prior to receiving a license for the service. Failure to obtain such permit will result in the application of sanctions as provided for in the Illinois Health Facilities Planning Act (Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1151 et seq.) [20 ILCS 3960].
- c) As the purpose of the demonstration project is to evaluate the model for quality factors, access and the impact on health care cost, each applicant approved for the category of service will be required to

periodically submit data necessary for evaluating the model's effectiveness. All data requests of this type shall be a component of the semiannual progress reports required of all permit holders. Data collected shall be provided to the Department of Public Health and the Illinois State Board of Health for use in their evaluation of the model.

d) Applications received for the postsurgical recovery care center alternative health care model shall be deemed complete upon receipt by the State Agency. All postsurgical recovery care center alternative health care models for the purposes of review shall be considered the establishment of a category of service rather than an addition of beds. Therefore, the 60 day review requirement of 77 Ill. Adm. Code 1130.610(b) for bed projects shall not apply to applications of this type. Due to the comparative nature of the postsurgical recovery care center alternative health care model review applicants will not be allowed to amend the application or provide additional supporting documentation during the review process prior to the initial State Board decision. The application, as submitted to the State Agency, shall serve as the basis for all standard and prioritization evaluation.

e) Applications received for the postsurgical recovery care center alternative health care model must be received by the State Agency between 8:30 and 5:00 p.m. in accordance with the following schedule: All applications received by the State Agency not in accord with this schedule shall not be accepted and returned to the applicant.

- 1) Projects located in the city of Chicago - May 1-12, 1995;
- 2) Projects located outside the city of Chicago - May 1-12, 1995;
- 3) Projects located in Kane, Lake and McHenry counties - May 1-12, 1995;
- 4) Projects located in municipalities as defined in 77 Ill. Adm. Code 1100.750 - June 1-12, 1995;
- 5) Projects located in rural areas as defined in 77 Ill. Adm. Code 1100.750 - June 1-12, 1995.

6) If the need for the number of models specified in 77 Ill. Adm. Code 1100.750 has not been met following the completion of State Board review of all applications submitted within the above schedule, the State Board shall not accept subsequent applications for any remaining sites until December 8, 1995. Agency Note: It is the applicant's responsibility to assure that the application has been received during the prescribed time frames and dates specified.

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF ADOPTED AMENDMENTS

NOTICE OF ADOPTED AMENDMENTS

- a) "Post surgical Recovery Care Center" is a designated site which provides postsurgical recovery care for generally health patients undergoing surgical procedures that require overnight nursing care, pain control, or observation that would otherwise be provided in an inpatient setting. Such a center may be either freestanding or a defined unit of an ambulatory surgical treatment center or hospital. The maximum length of stay for patients in a postsurgical recovery care center is not to exceed 72 hours. (Section 35 of the Alternative Health Care Delivery Act [210 ILCS 3/35])
- b) "Post surgical Recovery Care Center Alternative Health Care Model" means a category of service for the provision of postsurgical recovery care within a postsurgical recovery care center.
- c) "Surgical Referral Site" means an ambulatory surgical treatment center or hospital in which surgery will be performed and the surgical patient then transferred to the recovery care center.

Section 1110.2630 Postsurgical Recovery Care Center Alternative Health Care Model Review Criteria

a) Need/Unit Size--Review Criterion

The applicant must specify the number of beds to be in the proposed postsurgical recovery care center. The applicant must also document that the proposed number of beds is justified (utilizing the 80% occupancy target) based upon the anticipated number of patients who will utilize the service. Documentation shall consist of: patient identification numbers, ICD 9 Code or procedure type, patient length of stay and surgical referral site for each inpatient surgical case which occurred in surgical referral sites over the last twelve month period that could have received surgical recovery services within the model if it had been available.

b) Staffing--Review Criterion

The applicant must document that the postsurgical recovery care center will be a separate and distinct (physically separate and identifiable) facility and have a dedicated nursing staff (i.e., that staff members working a shift are assigned only to cover the model), a medical director and 24 hour seven days a week on call physician coverage by a physician licensed to practice medicine in all of its branches. The on-call physician must be able to be physically present at the model within 15 minutes upon request. Documentation shall consist of: physical layout of the center (i.e., design drawings), identification of the number and type of staff positions dedicated to the model, identification of the facility medical director including a

- a) signed commitment to the facility by that person stating a willingness to hold such a position and evidence that the required physician coverage will be accomplished.

c) Patient Mix--Review Criterion

The applicant must document that the postsurgical recovery care center is capable of providing recovery care to patients receiving a wide variety of surgical procedures. For the purposes of this rule the following specialties (listing not inclusive of all surgical procedures that can recover in the model) shall be recognized: general surgery; eyes-ears-nose and throat; orthopedic; plastic surgery; ophthalmology; urology; obstetric-gynecology; and gastroenterology. The applicant must document that anticipated referrals would result in admissions coming from at least three of these surgical specialties and that each of the three specialty groups represents a minimum of 10% of facility admissions totaling at least 30%. Documentation shall consist of a detailed listing of the types of surgical procedures which will be performed for which recovery care will be provided and the protocols as to how recovery care will be given to each type of surgical patient with details concerning how patient safety will be assured.

d) Travel Time--Review Criterion

The applicant must document that the model will be located no farther than 30 minutes travel time by medical transport from all surgical referral sites. Documentation shall consist of identification of all surgical referral sites and the time travel distance to the recovery care center. The applicant must also document who will have the responsibility for the transfer of patients from the surgical site to the postsurgical recovery care center and provide all transfer protocols which must demonstrate the safe transfer of the surgical patients to the postsurgical recovery care center from each surgical referral site.

e) On Site Emergency Care--Review Criterion

The applicant must document that the postsurgical recovery care center will have the capability to provide on-site emergency services sufficient to stabilize a patient for transfer to an acute care facility. Documentation shall consist of all protocols established for the treatment of emergency patients and the requirements established by the model for the education of staff in emergency procedures. Each postsurgical recovery care center must document that a crash cart is available on site and that staff trained in cardiac defibrillation are available at all times.

Section 1110.2650 Post surgical Recovery Care Center Alternative Health Care Model Project Completion

- a) Since the purpose for establishment of this category of service is to evaluate the alternative delivery model for effectiveness, such projects are not complete until such time as the model is evaluated and the decision made to adopt or not adopt the model as an ongoing licensed level of service separate from an alternative delivery model. A discontinuation permit will not be required of a facility holding a postsurgical recovery care center alternative health care model permit if the facility elects to discontinue the model. The postsurgical recovery care center alternative health care model project shall be considered complete as of the date the Agency receives notice of the discontinuation. If a need for an additional model exists applications shall be approved in accordance with Section 1110.2640. Any alteration, discontinuation or abandonment to the approved category of service during the life of the permit is subject to State Board review.
- b) All assurances and charges for service presented in the application shall be in effect for the life of the permit unless altered pursuant to the approval of the State Board. Charges may be annually adjusted for inflation not to exceed the growth in the health care component of the Consumer Price Index.
- c) A postsurgical recovery care center alternative health care model shall have a period of eighteen months from the date of permit issuance to become operational. Failure to begin operation in this time period shall result in the permit becoming null and void.

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

15) Summary and Purpose of Rulemaking:

This rulemaking is entered into for the primary purpose of implementing the provisions of the International Fuel Tax Agreement (IFTA). Illinois became a member of this Agreement in January, 1994. Membership in this Agreement is mandated by the Federal government under the provisions of the Surface Transportation Reauthorization Bill, signed into law December 18, 1991. IFTA affects the payment and reporting of motor fuel use taxes. It is designed to simplify fuel use tax reporting and payment by consolidating all reporting and payment obligations in a base state. Carriers subject to regulation in the base state make all reporting and payment to that state, which then distributes the taxes to other states. These changes implement the current provisions of the International Fuel Tax Agreement. New provisions include regulations pertaining to licensure, quarterly payment and reporting, credits and refunds, records requirements, revocation, protest procedures and audits under the Motor Fuel Use Tax programs administered by the Department. Changes have also been made in the rulemaking to reflect recent legislative changes to the Motor Fuel Tax Law (for example, several definitions in Subpart A were amended in response to Public Act 87-879 and 87-149; the provisions of the Uniform Penalty and Interest Act have affected several provisions of the Motor Fuel Tax Law; Public Act 87-879 changed the circumstances under which tax-free sales can be made by distributors and suppliers; the tax upon receivers imposed under Section 2a of the Motor Fuel Tax Law was extended until 1998 by Public Act 87-251; and Public Act 88-194 requires that certain licensees make returns accompanied by magnetic media support schedule data).

The burden is also upon the distributor, bulk user of--special--fuel--licensed--as--a--bulk--user--or--special--fuel supplier, bulk user or receiver to see to it that the valves on bulk plants function properly. This will have a tendency to eliminate substantial losses under various climatic conditions.

Section 500.210 Documentation of Tax-free Sales of Motor Fuel Made by Licensed Distributors and Suppliers

In addition, when special fuel is sold under this exemption, the seller must obtain from the purchaser a completed IDR-648 form.
- b) Sales of motor fuel delivered to points outside Illinois. The seller must retain the invoice date and number, name of carrier, bill of lading/manifest number, purchaser's name and address, Illinois origin, destination location, and invoiced gallons.

Section 500.235 Claims for Refund - Original Invoices

- Claims for the refund of Motor Fuel Tax imposed by Section 2 of the Law, by persons other than a distributor or supplier, shall be made to the Department of Revenue, duly verified by the affidavit of the claimant, upon forms prescribed by the Department. Except as provided in par. (c) of this Section, the Department of Revenue will not approve claims for refund of Motor Fuel Tax unless such claims are supported by original invoices or sales slips (commonly referred to as the top copy). Reproductions may be submitted in lieu of originals, provided they are legible. However, the Department may require original invoices to verify purchases. Manifests or monthly statements will not be treated as invoices.
- ~~In no case with any carbon copy of an invoice be considered an original~~ All Original sales slips or invoices must contain the following information:
 - Date of delivery;
 - name and address of purchaser (which must be the name of the claimant);
 - name and address of seller ~~printed-or-rubber-stamped~~;
 - number of gallons purchased and price per gallon;
 - Illinois Motor Fuel Tax as separate item; and
 - receipt of payment. (Only paid invoices are acceptable in connection with claims for refund, and the fact of payment must appear on the face of the invoice or sales slip.) Refunds will only be issued when payment of tax is exactly correlated to the invoice for which the claim is being filed.
- Claimants must file invoices or sales slips in conjunction with claims based upon motor fuel used for a nontaxable purpose. In making a claim, claimants must show total purchases, deducting the gallons used upon public highways or waters, the difference being the net amount upon which the claim is based. Only invoices directly supporting the nontaxable use are required to be submitted. However,

claimants must retain among their books and records documentation of all purchases, payments, bulk storage withdrawals and proof of usage for a period equivalent to that during which an assessment can be issued under the Law, from the date of issuance of the claim or refund. This information must be made available to Department employees upon request. Failure to keep such records may result in recovery of any claims paid.

d(e) Where the claimant has lost ~~his or her~~ original invoice through inadvertence or an act of God, the Department will permit the claimant to submit his affidavit in lieu of such invoice in support of the claim, if the affidavit contains the same information which the invoice was required to contain, plus a statement of facts explaining the loss of the invoice and justifying the substitution of an affidavit for the invoice.

e(d) Claims for full reimbursement of tax paid on motor fuel must be filed not later than one year after the date on which the tax was paid by the claimant. If, however, a claim for such reimbursement, otherwise meeting the requirements of the Act is filed more than one year but less than 2 years after that date, the claimant shall be reimbursed at the rate of 80% of the amount to which he would have been entitled if his claim had been timely filed.

f(e) Claims accompanied by sales slips or invoices upon the face of which there is evidence of change of name, date or gallongage, ~~or~~ other evidence of fraud, or which are illegible, will be disallowed in their entirety. Any person who purchases motor fuel in Illinois and uses that motor fuel in another state and that other state imposes a tax on the use of such motor fuel shall be reimbursed and repaid the amount of Illinois tax paid on the motor fuel used in such other state. Reimbursement and repayment shall be made by the Department upon receipt of adequate proof of taxes paid to another state and the amount of motor fuel used in that state. Evidence supporting the claim must include both a copy of the tax return filed with such other state and a copy of the cancelled check or a receipt acknowledging payment of the tax due on said tax return.

h(g) Claims for refunds for the motor fuel tax imposed by Section 2 of the Law approved by the Department shall be paid within 90 days after receipt of a complete and correct application for such a refund. If refunds are paid after the expiration of the 90 day period, the Department shall also pay from the Motor Fuel Tax Fund to the taxpayer a penalty of 1% of the amount of the refund for each month after the 90-day period interest at the rate and in the manner set by the Uniform Penalty and Interest Act Title:Rev Stat:1993-CH-1297 para 431.1 [35 ILCS 505/15.1].

Section 500.265 Distributors' and Suppliers' Claims for Credit

- Filing of Claims. Any distributor or supplier who shall have paid Motor Fuel Tax upon motor fuel used by such distributor or supplier for any purpose other than operating a motor vehicle upon the public highways or waters, may file a claim for credit to recover the amount so paid. Such claims shall be filed on forms prescribed by the Department. Such claims shall be made to the Department, duly verified by the affidavit of the claimant (or by the claimant's legal representative if the claimant shall have died or become a person under legal disability). The claim shall state such facts relating to the purchase, importation, manufacture or production of the motor fuel, by the claimant as the Department may deem necessary and shall state when the nontaxable use occurred and shall specify the purpose for which such motor fuel was used by the claimant, together with such other information as the Department may reasonably require. Claims

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

for credit for tax paid on motor fuel purchased on or after July 1, 1965, must be filed not later than one year after the date on which tax was paid by the claimant.

b) Issuance of Credit Memoranda - Use Thereof to Satisfy Prior Rights of the Department. The Department may make such investigation of the correctness of the facts stated in such claims for credit as it deems necessary. When the Department approves a claim for credit, the Department shall issue a credit memorandum to the distributor or supplier who made the payment for which credit is being given or, in the event that such distributors or suppliers shall have died or become incompetent, to such distributor's or supplier's legal representative, as such. The amount of such credit memorandum shall first be credited against any tax due or to become due under the Act from the distributor or supplier who made the payment for which credit has been given. This means that if there is an established or admitted unpaid Motor Fuel Tax liability on the part of the claimant, the amount of the credit will be credited against the tax that is due. If the credit is in an amount less than that of the unpaid liability, the credit shall be applied against such liability. If the amount of the credit exceeds that of the unpaid liability, after crediting an amount sufficient to liquidate or cancel out such unpaid liability, the Department will issue a new credit memorandum representing the difference between that of the original credit found to be due and that of the liability liquidated or paid as aforesaid, and such new credit memorandum will be delivered to the person entitled to receive delivery thereof, provided that no proceeding is pending against the claimant to establish an unpaid liability under the Act. If a proceeding to establish such an unpaid liability is pending, the credit memorandum will be held by the Department until such proceeding is concluded; and if such proceeding results in a determination that Motor Fuel Tax is due from the claimant, the credit will be applied by the Department, to the extent which may be necessary, in liquidation of such liability, and the balance of the credit, if any (after cancellation of the credit memorandum applied in liquidation of said liability), will be issued in the form of a new credit memorandum and delivered to the person entitled to receive delivery thereof.

- Disposition of Credit Memoranda by Holder Thereof
 - Assignment of Credit Memoranda. Credit memoranda may be assigned or transferred only after a request for that purpose is filed with the Department upon forms prescribed and furnished by it, and subject to the following conditions:
 - That the assignment is made to a person who is licensed as a distributor of motor fuel or a supplier of special fuel under the Act Law;
 - that there is no proceeding pending to establish an unpaid Motor Fuel Tax liability against the assignor; and
 - that there is no established or admitted unpaid Motor Fuel Tax liability against the assignee; provided, that if the

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

amount of the credit memorandum must first be applied, in whole or in part, against an unpaid liability of the claimant-assignor, notice to this effect will be given the claimant-assignor by the Department. If any balance is due such claimant-assignor, after application of the credit memorandum in the manner and to the purposes aforesaid, such balance may be assigned upon receipt by the Department of instructions to that effect. If there is no unpaid liability and no proceedings pending to determine a liability as aforesaid, and if the assignee is a licensed distributor of motor fuel, the request for leave to assign will be approved. The original credit memorandum will be cancelled, and a new credit memorandum will be issued to the assignee in the amount shown on the cancelled memorandum. However, before a credit memorandum is issued to the assignee, the amount of such credit will be applied, to the extent that may be necessary, in liquidation of any unpaid Motor Fuel Tax liability of the assignee, and a credit memorandum for the balance, if any, will be issued to the assignee, provided that there is no proceeding pending against the assignee to establish an unpaid Motor Fuel Tax liability against him. If a proceeding to establish such an unpaid liability is pending, the credit memorandum will be held by the Department until such proceeding is concluded; and if such proceeding results in a determination that Motor Fuel Tax is due from the assignee, the credit will be applied by the Department, to the extent which may be necessary in liquidation of such liability, and the balance of the credit, if any (after cancellation of the credit memorandum applied in liquidation of said liability), will be issued in the form of a new credit memorandum and delivered to the person entitled to receive delivery thereof.

- 2) Submission of Credit Memoranda With Monthly Returns. Credit memoranda, in the hands either of the original claimant or of his assignee, may be submitted to the Department, along with monthly tax returns, in payment of Motor Fuel Tax due from the holder of such credit memoranda. If, after applying any such credit memorandum against the amount of tax shown to be due by the tax return with which the credit memorandum is submitted, the Department finds that there is a balance of the credit memorandum in favor of the distributor or supplier submitting the credit memorandum, the Department will cancel the credit memorandum that has been submitted and will issue and deliver to such distributor or supplier a new credit memorandum for such balance. This process will be followed until the credit, to which such distributor or supplier is entitled, is exhausted. However, any new credit memorandum, which is issued as provided in this

paragraph for a balance of credit due the distributor or supplier after applying the amount of a credit memorandum to the payment of current taxes, is subject to the prior rights of the Department to the same extent that such prior rights take precedence when a credit memorandum is first issued (see paragraph (b) of this Section) or when leave to assign a credit memorandum is requested (see paragraph (c)(1) of this Section).

d) Refunds to Distributors and Suppliers. If any distributor or supplier ceases to be licensed as a distributor or supplier while still holding an unused credit memorandum, such distributor or supplier may, at his election (instead of assigning the credit memorandum to another licensed distributor or supplier under the Act), surrender such unused credit memorandum to the Department and receive a refund in lieu thereof.

e) Claims filed under this Section for overpayment of the Motor Fuel Tax imposed by Section 2 of the Law shall bear interest at the rate and in the manner specified in the Uniform Penalty and Interest Act. Claims made under this Section that are based upon motor fuel used for any purpose other than operating a motor vehicle upon the public highways or waters shall be paid within 90 days after receipt of a complete and correct application for credit. If credits based upon motor fuel used for any purpose other than operating a motor vehicle upon the public highways or waters are issued after expiration of the 90 day period, the Department shall include interest at the rate and in the manner set by the Uniform Penalty and Interest Act. Section 500.270 Receivers' Claims for Credit

Any receiver who has paid the tax imposed by Section 2a of the Motor Fuel Tax Law (either directly to the Department or to another licensed receiver) upon fuel exported or sold under the exemptions provided in Section 2a may file a claim for credit to recover the amount so paid. Such claims shall be made to the Department, duly verified by the affidavit of the claimant (or by the claimant's legal representative if the claimant has died or become a person under legal disability), upon forms prescribed by the Department. The claimant shall state such facts relating to the purchase, importation, manufacture, production, export, or sale of the fuel by the claimant as the Department may deem necessary together with such other information as the Department may reasonably require. Claims must be filed not later than one year after the date on which the tax was paid by the claimant. The Department may make such investigation of the correctness of the facts stated in such claims as it deems necessary. When the Department approves a claim, the Department shall issue a credit memorandum to the receiver who made the payment for which the credit is being given or, if the receiver has died or become incompetent, to such receiver's legal representative. The amount of such credit memorandum shall be

credited against any tax due or to become due under this Act from the receiver who made the payment for which credit has been given. (Section 13 of the Law) Claims Filed under this Section for overpayment of the tax imposed by Section 2a of the Law approved by the Department shall bear interest at the rate and in the manner set by the Uniform Penalty and Interest Act.

Section 500.275 Procedure when Tax-Paid Motor Fuel is Returned to Licensee for Credit

- In any case in which a customer returns the entire amount of tax-paid motor fuel covered by an invoice to the licensee, the licensee's agent or driver is to secure the original invoice which was issued to such customer at the time when such motor fuel was sold by the licensee to such customer. This invoice may ~~be~~ to be returned to the licensee upon request. The licensee, in compiling his monthly Motor Fuel Tax reports, is to detail all such returned motor fuel, reporting such transactions in the same manner as purchases of tax-paid motor fuel are reported, indicating the name and address of each person to whom credit was given, the number of gallons for which such credit was given, the invoice number and the date of the transaction. Credit can then be claimed on his return, subject to Department approval. The original invoice must be attached to the licensee's return.
- If only a portion of the original purchase is returned, the licensee is to make a notation on the face of the invoice, plainly indicating that portion of the motor fuel which was originally included in the number of gallons returned, the date when such motor fuel is returned and other pertinent information. After such notations are made on the invoice, the licensee is to return the invoice to the customer, who may use it to support a claim for refund of tax paid on that portion of the motor fuel which was originally included in the invoice, but returned by the customer. The licensee, in compiling his monthly Motor Fuel Tax reports, is to detail all such returned motor fuel, reporting such transactions in the same manner as purchases of tax-paid motor fuel are reported, indicating the name and address of each person to whom credit was given, the copy of the invoice with all notations and the date of the transaction. Credit can then be claimed on his return, subject to Department approval.

- c) If the entire amount of motor fuel covered by the invoice is returned to the licensee—the original invoice is to be surrendered to and retained by the licensee—for review by Department Auditors:
- d) The licensee is to compile his monthly Motor Fuel Tax reports—~~is~~ to detail—such—returned—motor fuel on schedule “Buy” reporting such transactions in the same manner as purchases of tax-paid motor fuel are reported—indicating the name and address of each person to whom credit was given, the number of gallons for which credit was given, the copy of the invoice with all notations and the date of the transaction. NOTICE OF ADOPTED AMENDMENTS

Section 500.300 Licensure

- a) Except as provided in Section 500.320, no motor carrier shall operate commercial motor vehicles, as defined in Section 500.100, in Illinois without first securing a motor fuel use tax license and decals issued by the Department (under either the IFTA or the Interstate program) or an IFTA motor fuel use tax license and decals issued under the International Fuel Tax Agreement by any member jurisdiction.
- b) Illinois IFTA credentials may be obtained from the Department by Illinois based carriers who operate one or more commercial motor vehicles in at least one other IFTA-member jurisdiction. Illinois based carriers are those carriers whose operational control and records for their vehicles are maintained or can be made available in Illinois and whose commercial motor vehicles accrue miles in Illinois. Carriers who are based in a non-IFTA state will not be issued IFTA credentials by the Department, unless issuance is granted for fleet consolidation purposes.
- An Illinois carrier registered under the IFTA must consolidate all vehicles in its fleet. Fleet consolidation must include commercial motor vehicles based in other IFTA jurisdictions, non-IFTA jurisdictions, and motor vehicles which travel exclusively intrastate, regardless of jurisdiction.
- c) Motor carriers operating commercial motor vehicles that are based in a state that has not joined IFTA, and who wish to operate in Illinois, may apply for an Illinois Interstate Motor Fuel Use Tax license and decals. If such carriers do not wish to obtain these credentials, they must obtain single trip permits before operating in Illinois.
- d) Motor vehicles operated by the State of Illinois or the United States government, recreational vehicles and school buses are not required to register as provided in subsection (a). However, if these carriers will travel in other jurisdictions, they may wish to obtain a motor fuel use tax license and decals under the provisions of the International Fuel Tax Agreement. This will allow the carrier, when in an IFTA jurisdiction that does not consider it exempt, to avoid receiving citations or being required to obtain the proper credentials (e.g., single trip permits). If the carrier is travelling in a non-IFTA jurisdiction and is not considered to be exempt from fuel tax reporting requirements, it must purchase single trip permits or otherwise obtain the proper motor fuel use tax credentials required by the laws of that particular jurisdiction.
- e) In order to establish and maintain the concept of one license and administrative base jurisdiction for each licensee, the Department shall issue only one license to each person.

- a) An officer or officers of the entity seeking licensure, or a person who is a partner or owner. Reporting services or persons responsible for reporting a licensee's tax obligations under a power of attorney are not permitted to sign an application on behalf of any applicant.
- b) 9) Type of fuel(s) used by applicant.
- c) 10) Decal fee:
- d) 11) For IFTA applicants, a statement of the existence of bulk storage facilities in all member jurisdictions; and
- e) 12) A statement that the applicant agrees to comply with reporting, payment, recordkeeping, and license display requirements, and all applicable regulations. IFTA applicants must agree that the base jurisdiction may withhold any refunds due if the applicant is delinquent on payment of motor fuel use taxes due any member jurisdiction or taxes owed to the Department.
- f) Bonds are not required for first-time applicants. However, bond may be required for just cause, as determined by the Department. Bonds may be required when a licensee fails to file timely reports, when he fails to remit the proper tax, when the Department has twice received a Non-Sufficient Funds check as payment, or when an audit indicates problems severe enough that, in the Director's discretion, a bond is required to protect the interests of the Department. If a bond is required, it shall be in the amount of \$1000, or twice the estimated average tax liability for the reporting period, whichever is greater.
- g) Neither a license or decals shall be issued to any person who fails to file a return, or to pay the tax, penalty or interest for a filed return, or to pay any final assessment of tax, penalty or interest, as required by the Law, or as required by any other tax Act administered by the Department [20 ILCS 2505/39b4].

- i) Upon receipt of a complete application for a license and decals, including payment for decals, any required reinstatement fees and provision of an approved bond, if applicable, the Department will issue each applicant one license. In addition to the license, a minimum of two decals per commercial motor vehicle will also be issued. A license and decals are valid for a period of one calendar year.

Section 500.310 Display of License and Decals

a) Motor fuel use tax licenses, or copies thereof, shall be carried in

- The cab of each commercial motor vehicle operating in Illinois. Failure to carry a copy of the license in the commercial motor vehicle may subject the operator to the purchase of a single trip permit and/or a citation.
- b) The Department will not issue multiple licenses to an applicant. If the applicant requires multiple licenses, he may make legible copies of his license and carry them in his vehicles.
- c) One decal must be placed on the exterior portion of each side of the cab of the commercial motor vehicle. In the case of transports, manufacturers, dealers, or driveway operations, the decals need not be permanently affixed, but may be temporarily displayed in a visible manner on both sides of the cab. Failure to display decals in the required manner may subject the vehicle operator to the purchase of a single trip permit and/or a citation.
- d) Decals are not vehicle specific. Licensees may purchase additional decals at a cost of \$3.75 per set throughout the license year. If decals are destroyed, lost or stolen, replacements may be obtained from the Department at a cost of \$2 per set. Additional decals must be ordered on forms provided by the Department.
- e) Decals are valid only for the vehicle of the person to whom they are issued. The transfer of decals between commercial motor vehicles or from one motor carrier to another is prohibited.
- f) All IFTA carriers shall be allowed a two-month grace period to display the current year IFTA license and decals. They may display a decal and license from the previous year issued by any member jurisdiction until March 1.
- g) Carriers from new member jurisdictions shall be allowed a two-month grace period from the date of the new member's IFTA program implementation to display the IFTA license and decals. However, to operate in Illinois, these carriers must either display a decal and license issued by Illinois for the previous year, a single trip permit, or the current year IFTA license issued by their base state.

Section 500.315 Renewal of Decals and Licenses

a) Motor fuel use tax licenses and decals must be renewed annually on forms provided by the Department. The Department shall mail renewal applications to all currently registered licensees in good standing. Failure to receive a license renewal application does not excuse a licensee's failure to renew his credentials.

b) The Department may deny a renewal application if the applicant has failed to file a return, pay any outstanding motor fuel use tax liabilities or other liabilities owed to the Department, or is currently revoked.

- a) If a commercial motor vehicle does not have motor fuel use tax credentials under either IFTA or the Illinois interstate motor fuel use tax program, a single trip permit to operate in Illinois must be obtained. A single trip permit may be obtained upon proper application from the Department or its agents.
- b) A single trip permit authorizes operation of a commercial motor vehicle for a single trip through the State of Illinois, or from a point on the border of this State to a point within and return to the border.
- c) The fee for each single trip permit shall be \$20 and such single trip permit is valid for a period of seventy-two hours. This fee is in lieu of the tax and all reports required by Section 13a.3 of the Law, as well as the registration, decal display and furnishing of bond required by Section 13a.4 of the Law.

- a) A lessor regularly engaged in the business of leasing or renting motor vehicles without drivers for compensation to licensees or other lessees may be deemed to be the licensee, and such lessor may be issued a license if an application has been properly filed and approved by the base jurisdiction.
- b) In the case of a carrier using independent contractors under long-term leases (more than 30 days), the lessor and lessee will be given the option of designating which party will report and pay fuel use tax. If the lessee (carrier) assumes responsibility for reporting and paying motor fuel taxes, the base jurisdiction for purposes of this Part shall be the base jurisdiction of the lessee, regardless of the jurisdiction in which the commercial motor vehicle is registered for vehicle registration purposes by the lessor.
- c) For motor vehicle leases of 30 days or less, the lessor of the motor vehicles under lease will be liable for all requirements of the motor fuel use tax program.
- d) In the case of a household goods carrier using independent contractors, agents, or service representatives, under intermittent leases, the party liable for motor fuel tax shall be:
- 1) The lessee (carrier) when the commercial motor vehicle is being operated under the lessee's jurisdictional operating authority. The base jurisdiction for purposes of this Part shall be the base jurisdiction of the lessee (carrier), regardless of the

- 2) The lessor (independent contractor, agent, or service representative) when the qualified motor vehicle is being operated under the lessor's jurisdiction for purposes of this part shall be the base jurisdiction of the lessor, regardless of the jurisdiction in which the commercial motor vehicle is registered for vehicle registration purposes.
- e) For licensees registered under the IFTA, leases shall be made available upon request of the Department or request of any member jurisdiction.

(Source: Added at 19 Ill. Reg. 3008, effective FEB 28 1995)Section 500.330 Cancellation of License

- a) A licensee may request that its license be cancelled. A licensee will only be cancelled if all reporting requirements and tax liabilities have been met and the account is clear of any unapplied payments or credits. A licensee must request cancellation either by checking the cancellation box on the quarterly tax return and noting the date of the end of operations, or by submitting a written request for cancellation to the Department.
- b) Upon cancellation, the carrier must destroy its original license and all copies, and decals.
- c) A final audit may be conducted by the Department, or for IFTA licensees, by any IFTA jurisdiction, upon cancellation of the license. A carrier cancelling a license must retain all records for a period of four years from the due date of the final quarterly tax return.

(Source: Added at 19 Ill. Reg. 3008, effective FEB 28 1995)Section 500.335 Quarterly Payment and Reporting

- a) Every person holding a valid unrevoked motor fuel use tax license issued by the Department under either the Illinois interstate motor fuel use tax program or under the provisions of the IFTA shall file a quarterly motor fuel use tax return, along with full payment of taxes, with the Department. Returns are due, even if no operations were conducted during the reporting period. The due date for the return and full payment of taxes is the last day of the month immediately following the close of the quarter for which the return is being filed. Returns and full payment of taxes are due on or before the following dates:

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

Reporting Quarter Due Date

January - March April 30

April - June July 31

July - September October 31

October - December January 31

If the due date is a Saturday, Sunday, or legal holiday, the next business day is considered the due date. Each motor fuel use tax return should be mailed in a separate envelope.

The taxable event is the consumption of motor fuel, as defined in Section 500.100 of this Part, used to operate commercial motor vehicles. For tax payment and reporting purposes, all motor fuels placed in supply tanks of commercial motor vehicles, and all miles travelled, are taxable. Carriers must utilize the procedures in Section 500.235 for refunds for off-road or non-highway use.

c) For IFTA licensees: The IFTA provides that member jurisdictions may determine what type of motor fuels and miles travelled are exempt from tax, and are therefore not reportable. Carriers should contact member jurisdictions to determine what types of fuel and miles travelled are exempt from taxation. For IFTA carriers, claims for refunds for fuel used for any purpose other than propelling a commercial motor vehicle upon public highways must be made directly to the respective jurisdiction.

d) The quarterly return shall include a statement of the total number of miles travelled, as well as total miles travelled in each jurisdiction and in Illinois during the previous calendar quarter; the total number of gallons and type of reportable motor fuel consumed on the highways of all jurisdictions, as well as in each jurisdiction and in Illinois, and the total number of gallons and types of tax paid fuel purchased within each jurisdiction during the previous calendar quarter; and the total (net) of tax due the base jurisdiction on behalf of all jurisdictions. Licensees shall report all required information, and may not include miles operated and gallons of fuel purchased that were unavailable during any prior quarters. If a licensee does not include all required information, and that information is subsequently available, he must file an amended return, which will include penalty and interest.

e) Fuel and distance must be reported in gallons and miles. The conversion rates are:

One liter = 0.2642 gallons
One gallon = 3.785 liters

One mile = 1.6093 kilometers
One kilometer = 0.62137 mile

f) For carriers registered under the IFTA which consume compressed natural gas and other fuels that cannot be measured in gallons, the fuels must be converted to gallons using the conversion factor

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

used by the jurisdiction in which the fuel was consumed. The conversion rate for compressed natural gas is 14.7 pounds per square inch for 1 gallon or 1.24 therms of compressed natural gas per gallon.

g) In order for a licensee to obtain credit for tax-paid retail purchases, a receipt or invoice, a credit card receipt, or microfilm/microfiche of the receipt or invoice must be retained by the licensee showing evidence of such purchases and tax having been paid by the licensee directly to the applicable jurisdiction or at the pump. The receipt must contain the following information:

1) date of purchase;
2) seller's name and address;
3) number of gallons purchased;
4) fuel type;
5) price per gallon or total amount of sale;

6) unit numbers; and
7) purchaser's name (in the case of a lessee/lessor agreement, receipts will be accepted in either name, provided a legal connection can be made to reporting party).

h) In the case of withdrawals from licensee-owned, tax-paid bulk storage, credit may be obtained only if the following records are maintained:

1) date of withdrawal;
2) number of gallons;

3) fuel type;
4) unit number (upon application by a licensee, the Department may waive the requirement of unit numbers for fuel withdrawn from the licensee's own bulk storage and placed in its commercial motor vehicles. The licensee must show that adequate records are maintained to distinguish fuel placed in commercial vs. non-commercial motor vehicles for all member jurisdictions);

and
5) purchase and inventory records to substantiate that tax was paid on all bulk purchases.

i) Carriers registered under the IFTA must pay all taxes due to all member jurisdictions with one check, to be made payable to the Department. Payment by certified check is required of licensees who are required to post a bond.

j) Returns shall be filed on forms provided by the Department, with written approval from the Department, a licensee may submit a computer-generated tax return instead of the Department-supplied return. Computer-generated tax returns will be approved only if they contain all the same information, are in the same format and are on the same size paper, as the Department's return.

k) If a licensee uses a reporting service for his motor fuel use taxes, a power of attorney must be placed on file annually at the time of renewal. Filing a power of attorney does not relieve the

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

licensee of the legal obligations associated with the license. The licensee is responsible for the payment of taxes as well as all acts and omissions of the reporting service. If a power of attorney is on file, the Illinois Department of Revenue will mail the quarterly tax return to the reporting service. Decal and renewal applications, however, will always be mailed directly to the licensee.

1) Reports not filed or full payment of taxes not made by the due date shall be considered late and any taxes due considered delinquent. The licensee shall be assessed a penalty of \$50 or 10 percent of the delinquent taxes, whichever is greater, for failure to file a report for filing a late report, or for underpayment of taxes due. Tax shall bear interest at the rate of 1 percent per month or fraction of month until paid. For reasonable cause shown, the Department may waive a penalty. For IFTA licensees, the Department may waive interest for another jurisdiction only with that jurisdiction's approval.

days after receipt of a request by the licensee. If not so paid, interest shall accrue at the rate of 1 percent per month or fraction thereof until the refund is paid.

f) No credit or refund shall be allowed or made based upon:

- 1) a return filed more than one year after the due date of such return; or
- 2) overpayments for which records are no longer required to be kept. A request for a refund shall extend the records requirement date until the refund is made or denied.

g) While not required to be attached to the return, proof of tax-paid purchases, as specified in Section 500.335(q) or (h), must be retained by the licensee.

h) For carriers registered under the IFTA, credits or refunds for tax paid on tax-exempt fuels must be made directly with the participating jurisdiction.

Section 500.340 Credits and Refunds

a) A licensee shall receive full credit or refund for tax-paid fuel used outside the jurisdiction where the fuel was purchased. For Illinois interstate program licensees, as to each gallon of motor fuel purchased in Illinois by such motor carrier during the previous calendar quarter in excess of the number of gallons of motor fuel used by such motor carrier on the highways of Illinois during such previous calendar quarter, the licensee may take a credit for the current calendar quarter. For IFTA licensees, a licensee may apply the overpayment generated in one jurisdiction to the taxes owed to another jurisdiction.

b) Credits shall be carried over to offset liabilities of the licensee in future reporting periods until the credit is fully offset or until eight calendar quarters shall have passed since the end of the calendar quarter in which the credit accrued, whichever occurs sooner. If the credit has not been used to offset liabilities in 8 calendar quarters, it shall be refunded to the licensee.

c) Credits and refunds will be made only when all tax liability, including audit assessments, has been paid to the Department or when all motor fuel use tax liabilities, including audit assessments, penalty and interest owed to other jurisdictions, has been satisfied.

d) Refunds will not be made for amounts under \$1. Amounts less than \$25 will be credited, and sums of \$25 and over will be automatically refunded.

e) Refunds determined to be properly due shall be paid within 90

Section 500.345 Records Requirements

a) Each licensee shall maintain records to substantiate information reported on the quarterly tax report. Records shall be preserved for a period of four years from the due date of the return or the date filed, whichever is later. Records may be kept on microfilm, microfiche, or other computerized or condensed record storage system. Such records, for IFTA licensees, shall be made available upon request of any member jurisdiction.

b) Non-compliance with any recordkeeping requirement may be cause for revocation of the license.

c) Failure to provide records demanded for the purpose of audit extends the statute of limitations until the records are provided. Successive failures to adequately respond to a demand for records relate back to the first demand.

d) Bulk storage fuel purchases and withdrawals and over-the-road purchases are to be accounted for separately.

e) Fuel records shall contain the following items:

- 1) the date of each receipt of fuel;
- 2) the name and address of the person from whom purchased or received;
- 3) the number of gallons received;
- 4) the type of fuel; and
- 5) the vehicle or equipment into which the fuel was placed.

f) All licensees shall, in addition, maintain detailed distance records which show operations on an individual-vehicle basis. Such records shall contain but not be limited to:

- 1) both taxable and non-taxable usage of fuel;
- 2) distance traveled for taxable and non-taxable use; and

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

3) distance recaps for each vehicle for each jurisdiction in which the vehicle operated. The Individual Vehicle Mileage Record (IVMR) required by the International Registration Plan is an acceptable source document for recording vehicle distance information. Another acceptable source document is a trip report which includes the information in subsection (f)(1)-(3), as well as the date of trip (starting and ending), trip origin and destination (including city and state), routes of travel and/or beginning and ending odometer readings, vehicle unit number, vehicle fleet number and licensee's name.

On-Board Recording Devices. On-board recording devices may (at the option of the carrier) be used in lieu of or in addition to handwritten trip reports for fuel tax reporting. On-board recording devices may be used alone or in conjunction with an electronic computer system, or in conjunction with manual systems.

1) All recording devices used to generate trip reports or used in conjunction with manual systems must meet the requirements shown in subsections (g)(3) and (4) below. When the on-board recording device is used in conjunction with an electronic computer system and reports are prepared on the basis of data downloaded from the recording device, the overall system must meet the requirements of subsections (g)(4), (5) and (7).

Use of On-Board Recording Device. When the device is to be used alone, printed reports must be produced which replace the handwritten trip report. The printed trip reports shall be retained for audit. Vehicle and fleet summaries which show miles and kilometers by jurisdiction must then be prepared manually.

3) Use of On-Board Recording Device in Conjunction with Electronic Computer System. When the computer system is designed to produce printed trip reports, vehicle and fleet summaries which show miles and kilometers by jurisdiction must also be prepared. When the printed trip reports will not be retained for audit, the system must have the capability of producing, upon request, the reports indicated in subsection (g)(7).

4) Minimum Device Requirements. Minimum device requirements include the following:

A) The carrier must obtain a certificate from the manufacturer certifying that the design of the on-board recording device has been sufficiently tested to meet the requirements of this provision.

B) The on-board recording device and associated support systems must be to the maximum extent practicable tamper proof and must not permit altering of the information collected. Editing of copies of the original information collected will be allowed, but all editing must be identified and both the edited and original data must be

- recorded and retained.
- C) The on-board recording device shall warn the driver visually and/or audibly that the device has ceased to function.
- D) The device must time and date stamp all data recorded.
- E) The device must not allow data to be overwritten before the data has been extracted. The device shall warn the driver visually and/or audibly that the device's memory is full and can no longer record data.
- F) The device must automatically update a life-to-date odometer when the vehicle is placed in motion or the operator must enter the current vehicle odometer reading when the on-board recording device is connected to the vehicle.
- G) The device must provide a method for the driver to confirm that the entered data is correct (e.g., a visual display of the entered data that can be reviewed and edited by the driver before the data is finally stored).
- 5) Data collection. To obtain the information needed to verify fleet distance, to prepare the "Individual Vehicle Distance Record(s)" (IVDR), and for fuel tax purposes, the device must collect the following data on each trip:
- A) date of trip (starting and ending);
- B) trip origin and destination (location code is acceptable);
- C) routes of travel;
- D) beginning and ending odometer or hubodometer reading of the trip;
- E) total trip distance;
- F) distance by jurisdiction;
- G) power unit number or vehicle identification number;
- H) vehicle fleet number;
- I) registrant's name;
- J) driver ID or name;
- K) intermediate trip stops;
- L) date of purchase;
- M) seller's name and address (vendor code acceptable);
- N) number of gallons purchased;
- O) fuel type (may be referenced from vehicle file);
- P) price per gallon or total amount of sale (required only for purchases from vendors);
- Q) unit numbers; and
- R) purchaser's name (in the case of lessee/lessor agreement, receipts will be accepted in either name, provided a legal connection can be made to reporting party).
- 6) For purposes of bulk fuel tax, the device must collect, in addition to the items in subsection (g)(5)(A)-(R), the following data:
- A) date of withdrawal;

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

- B) number of gallons;
 C) fuel type;
 D) unit number; and
 E) purchase and inventory records to substantiate that tax was paid on all bulk purchases.
- 7) Capability of System to Produce Reports. Generally speaking, the reports referred to in this subsection are not prepared by the on-board recording device. Instead, these reports are prepared using an electronic computer system which accepts data from the on-board recording device. The system must be able to produce the following reports:
- A) For each trip, an Individual Vehicle Distance Record (IVDR) report that includes the information required in subsection (g)(5) (Note: this report may be more than one page);
 - B) A report that indicates when the on-board recording device was last calibrated and the calibration method used;
 - C) An exception report(s) that identifies all edited data, omissions of required data (see subsection (g)(5)), system failures, noncontinuous life-to-date odometer readings, travel to noncontiguous states, and trips where the location of the beginning trip is not the location of the previous trip;
 - D) A monthly, quarterly, and annual summary of vehicle trips by vehicle number showing miles or kilometers by jurisdiction;
 - E) Monthly, quarterly, and annual trip summaries by fleet showing the number of miles or kilometers by jurisdictions.
- 8) Carrier Responsibilities. All carriers must observe the following requirements:
- A) It is the carrier's responsibility to recalibrate the on-board recording device when tire size changes, the vehicle drive-train is modified, or any modifications are made to the vehicle which affect the accuracy of the on-board recording device. The device must be maintained and recalibrated in accordance with the manufacturer's specifications. A record of recalibrations must be retained for the audit retention period.
 - B) It is the carrier's responsibility to assure its drivers are trained in the use of the computer system. Drivers shall be required to note any failure of the on-board recording device and to prepare manual trip reports of all subsequent trip information until the device is again operational.
 - C) It is the carrier's responsibility to maintain a second copy (back-up copy) of the electronic files either electronically or in paper form for the audit retention period.

NOTICE OF ADOPTED AMENDMENTS

- D) It is the carrier's responsibility to assure the entire record-keeping system meets the requirements of the Department. It is suggested that the carrier contact the Department's audit division for verification of audit compliance prior to implementation.

Section 500.350 Revocation

- a) The Department may revoke the motor fuel use tax license of a carrier registered under either the Illinois interstate or IFTA program, for violation of any provision of the Law or any rules promulgated thereunder. Causes for revocation include, but are not limited to, failure to file a quarterly tax return or to remit all taxes due, or improper use of decals.
- b) The Department shall send the licensee a written notice of its decision to revoke a license. Unless the licensee timely protests the Department's determination as provided for in Section 500.355, the revocation is final.
- c) A licensee whose license has been revoked may have that license reinstated if the condition which caused revocation is remedied. The carrier must pay a \$100 reinstatement fee and file a new application for a license and decals. Carriers whose license has been revoked and then reinstated will be required to post a bond in accordance with the provisions of Section 500.305.

Section 500.355 Protest procedures

- a) A licensee or applicant may protest an action or audit finding made by the Department by submitting a written request for a hearing within 30 days after notification of the notice of the original action or finding. If the hearing is not requested within 30 days, the Department's action becomes final.
- b) In the case of an audit, if the licensee is in disagreement with the original audit finding of the Department, it may request any or every jurisdiction to audit the licensee's records. Each jurisdiction to which a request is made may elect to accept or deny the request. Each jurisdiction electing to audit the licensee's records will audit only for its own portion of the licensee's operations. The licensee shall make records available at the office of the jurisdiction or at a place designated by the jurisdiction or pay reasonable per diem and travel expenses associated with conducting an audit at the licensee's place of business.

DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

- c) Hearings that have been timely requested will be scheduled by the Department. The Department will provide written notice of the date, time, and place of the hearing at least 20 days prior to the hearing date.
- d) Hearings shall be conducted in accordance with the provisions of the Illinois Administrative Procedure Act [5 ILCS 100] and regulations promulgated thereunder found at 86 Ill. Adm. Code 200.101 through 200.175.
- e) The Department shall notify the licensee of the findings of fact and ruling on the hearing. If, within 35 days from the date the licensee receives notice of such decision, proceedings for review thereof are not instituted in the manner provided by the Administrative Review Law [735 ILCS 5/Art. III], the decision shall become final.
- f) For IFTA licensees only, the Department shall participate in the hearing on behalf of all member jurisdictions.

(Source: Added at 19 Ill. Reg. 3008, effective FEB 28 1995)

Section 500.360 Audits

- a) The purpose of an audit is to verify fuel and mileage data reported on the quarterly tax return. Any licensee may be selected for audit.
- b) Prior to conducting an audit, the auditor will contact the licensee to arrange a date to commence the audit. At that time, the auditor will outline the time period to be audited and the records to be reviewed. A confirmation letter will be sent to confirm date and time. For just cause (e.g., to ensure the validity of the audit), the notification requirement may be waived. At the beginning of the audit, the auditor will determine background information, reporting methods and records that will be reviewed. As the audit progresses, the auditor and licensee will discuss the sample periods, sampling techniques, and any problem areas. A final conference will be held with the licensee to explain audit adjustments and future reporting practices. Any audit adjustment will be reflected on an amended return covering the period of the audit.

- c) Audit guidelines. Audits will be completed using the best information available. In the absence of adequate records, a standard of four miles per gallon will be used. Tax-paid fuel entries will be disallowed if tax-paid fuel documentation is unavailable. All reasonable attempts will be made to verify reported miles.
- d) If a licensee fails to make records available upon proper request or if any licensee fails to maintain records from which the licensee's true liability may be determined, the Department may, 30

The determination shall be made from information previously furnished by the licensee, if available, as well as any other pertinent information which is available to the Department.
- e) In the event that an IFTA licensee's records are not located in Illinois and the Department must send auditors to the place the records are kept, the Department may require the licensee to reimburse it for reasonable per diem and travel expenses of its auditors, as authorized by law.

- f) IFTA Licensees - Additional Audit Requirements. The Department will audit its IFTA licensees on behalf of all member jurisdictions and shall submit audit reports to all other member jurisdictions. In addition, the following additional requirements shall apply to IFTA licensee audits:
- 1) A member jurisdiction may re-examine a base jurisdiction's audit findings if the member jurisdiction reviews the audit work papers and, within 45 days after receipt of the audit findings by the member jurisdiction, notifies the Department of any errors found during such review and of its intention to conduct the re-examination. Such re-examination by a member jurisdiction must be based exclusively on the audit sample period utilized by the Department in conducting its audit.
 - 2) A member jurisdiction may reaudit a licensee if said member jurisdiction notifies the base jurisdiction and the licensee of reasonable cause for the re-audit.
 - 3) The re-audit or re-examination by a member jurisdiction must be performed in cooperation with the base jurisdiction. An adjustment to original audit findings as a result of such re-audit or re-examination must be reconciled with the original audit findings issued by the Department. New audit findings shall be issued by the Department. A member jurisdiction conducting a re-audit or re-examination shall pay its own expenses.

- 3) Section Numbers: Emergency Action:
219.585 Amend
- 4) Statutory Authority: Section 27(c) of the Environmental Protection Act [415 ILCS 5/27(c)] and Section 5-45 of the Administrative Procedure Act [ILCS 100/5-45].
- 5) Effective Date of Emergency Amendments: February 28, 1995
- 6) If this emergency rule amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: N/A
- 7) Date Filed in Agency's Principal Office: February 23, 1995
- 8) Reason for Emergency:

The compliance date for facilities, other than retail and wholesale-consumer facilities, to achieve a maximum gasoline RVP of 7.2 psi is one month earlier than the federal compliance date for these facilities. Federal regulations require such facilities to comply by June 1st of each year, while Section 219.585(a) requires compliance by May 1st. The May 1st date was agreed to by the Agency and industry in part in reliance on regulatory action by Missouri which did not occur. This emergency rule is necessary because a non-emergency rulemaking cannot be completed prior to May 1, 1995, and there is a threat to the public interest and welfare.

The environmental effect of the one month delay is expected to be minimal (0.27 tons per day of volatile organic emissions reductions per Agency estimates). The hardship of May (as opposed to June) compliance to the petroleum industry is: (1) for the refiners, acceleration of production schedules to supply lower volatility gasoline for only one small area of a larger market area; (2) for pipelines, the need to ship a separate, low RVP to the Illinois market during the month of May; and (3) for gasoline distributors, the shortening of time to blend down their tanks from higher volatility winter gasoline and the resulting rise of the risk of being out of compliance. Under these circumstances, the Board finds, as the Agency suggests, that the proposed revision is reasonable and further achieves the regulatory consistency originally intended, with no detriment to the Metro-East air quality".

9) A Complete Description of the Subjects and Issues Involved:

This rulemaking is explained in detail in the Board's Opinion and Order in R95-10, available free of charge from the Clerk of the Board at the address listed in item 12, below. The Board took emergency action upon the February 14, 1994 motion of the Illinois Environmental Protection Agency (Agency). The Agency made its motion upon written requests it received from the Amoco Oil Co., the Illinois Petroleum Council, Marathon Oil Co., Phillips 66 Co., and Shell Oil Co.

The emergency rule postpones the compliance date for the maximum gasoline RVP rule (7.2 psi) as it applies to facilities other than retail and wholesale-consumer, from May 1, 1995 to June 1, 1995.

10) Are there any other proposed amendments pending on this Part? Yes

SUBPART V: GASOLINE DISTRIBUTION

Section 219.585 Gasoline Volatility Standards
EMERGENCY

- a) No person shall sell, offer for sale, dispense, supply, offer for supply, or transport for use in Illinois gasoline whose Reid vapor pressure exceeds the applicable limitations set forth in subsections (b) and (c) below during the regulatory control periods, which shall be June 1 to September 15 ~~for--retail--outlets--and--wholesale purchaser--consumer--facilities--and--from-May-1-to-September-15-for--all other--facilities.~~
b) The Reid vapor pressure of gasoline, a measure of its volatility, shall not exceed 7.2 psi (49.68 kpa) during the regulatory control period in 1995 and each year thereafter.
c) The Reid vapor pressure of ethanol blend gasolines having at least nine percent (9%) but not more than ten percent (10%) ethyl alcohol by volume of the blended mixture, shall not exceed the limitations for gasoline set forth in subsection (b) of this Section by more than 1.0 psi (6.9 kpa). Notwithstanding this limitation, blenders of ethanol blend gasolines whose Reid vapor pressure is less than 1.0 psi above the base stock gasoline immediately after blending with ethanol are prohibited from adding butane or any product that will increase the

NOTICE OF EMERGENCY AMENDMENTS

Reid vapor pressure of the blended gasoline.

- d) All sampling of gasoline required pursuant to the provisions of this Section shall be conducted in accordance with the procedures contained in 40 CFR Part 80, Appendix D, Sampling Procedures for Fuel Volatility, which are incorporated by reference in Section 219.112 of this Part.
e) The Reid vapor pressure of gasoline shall be measured in accordance with the procedures contained in "Tests for Determining Reid Vapor Pressure (RVP) of Gasoline and Gasoline-Oxygenate Blends" as set forth in 40 CFR 80, Appendix E, incorporated by reference in 35 Ill. Adm. Code 219.112 of this Part.
f) The ethanol content of ethanol blend gasolines shall be determined by use of one of the approved testing methodologies specified in 40 CFR Part 80, Appendix F, incorporated by reference in 35 Ill. Adm. Code 219.112 of this Part.
g) Any alternate to the sampling or testing methods or procedures contained in subsections (d), (e), and (f) of this Section must be approved by the Agency, which shall consider data comparing the performance of the proposed alternative to the performance of one or more approved test methods or procedures. Such data shall accompany any request for Agency approval of any alternate test procedure. If the Agency determines that such data demonstrates that the proposed alternative will achieve results equivalent to the approved test methods or procedures, the Agency shall approve the proposed alternative.
h) Recordkeeping and reporting:
 - 1) Each refiner or supplier that distributes gasoline or ethanol blends shall:
 - A) During the regulatory control period, state that the Reid vapor pressure of all gasoline or ethanol blends leaving the refinery or distribution facility for use in Illinois complies with the Reid vapor pressure limitations set forth in 35 Ill. Adm. Code 219.585(b) and (c) of this Part. Any source receiving this gasoline shall be provided with a copy of an invoice, bill of lading, or other documentation used in normal business practice stating that the Reid vapor pressure of the gasoline complies with the State Reid vapor pressure standard.
 - B) Maintain records for a period of three years on the Reid vapor pressure, quantity shipped and date of delivery of any gasoline or ethanol blends leaving the refinery or distribution facility for use in Illinois. The Agency shall be provided with copies of such records if requested.
 - 2) Records and reports required by subsections (h)(2)(A) and (h)(2)(B) below shall be made available to the Agency upon request. During the regulatory control period, the owner or operator of a gasoline dispensing operation subject to this

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF REFUSAL

TO MEET THE OBJECTION OF THE JOINT COMMITTEE ON ADMINISTRATIVE RULES

1) Heading of the Part:

Health Facilities Planning Procedural Rules

2) Code Citation:

3) Section Numbers:

Refusal

4) Date Notice of Proposed Rules Published in the Illinois Register

June 17, 1994 (18 Ill. Reg. 8867)

5) Date JCAR Statement of Objection Published in the Illinois Register

December 2, 1994 (18 Ill. Reg. 17288)

6) Summary of Action Taken by the Agency:

The Department of Public Health/Health Facilities Planning Board refuses to modify or withdraw Section 1130.140 in response to the objection of the Joint Committee on Administrative Rules. The State Board believes that statutory authority does exist both under the Illinois Health Facilities Planning Act ("the Act") and the Illinois Administrative Procedure Act authorizing and mandating the State Board to define as well as "redefine" these two statutory terms, for the following reasons:

- a. The Illinois Health Facilities Planning Act does not define either the term "discontinuation" nor "substantially changes the scope or changes the functional operation of the facility;"
- b. The Illinois Administrative Procedure Act requires agencies to promulgate as a rule any "agency statement of general applicability that implements, applies, interprets, or prescribes law or policy..." (5 ILCS 100/1-70);
- c. The substance of both existing rules defining "discontinuation" and "substantially changes the scope or changes the functional operation of the facility" constitutes State Board statements which are of general applicability and which implement, apply, interpret and prescribed State Board policy;
- d. The substance of the proposed amendments to these existing rules similarly constitutes State Board statements which are of general

- 1) applicability and which implement, apply, interpret and prescribe State Board policy;

- e. The Health Facilities Planning Act requires the promulgation of rules, criteria and procedures" which may vary according to the purpose for which a particular review is being conducted or the type of project reviewed and which are required to carry out the provisions and purposes of the Act" (20 ILCS 3960/12(1); and Section 2 of the Act states as the purpose of the legislation "to establish a procedure designed to reverse the trends of increasing costs of health care resulting from unnecessary construction or modification of health care facilities" (20 ILCS 3960/2); and,
- f. Again the State Board believes that neither JCAR nor its staff found the existing rules defining "discontinuation" or "substantially changes the scope or changes the functional operation of the facility" to be objectionable or otherwise without statutory authority at the time of promulgation; nor has JCAR staff raised concern or expressed any question with regard to the State Board's statutory authority to amend the existing rules defining these two terms.

NOTICE OF PUBLIC INFORMATION ON PROPOSED AMENDMENTS

NOTICE PURSUANT TO 415 ILCS 5/7.2(b)

Section 13.3 of the Environmental Protection Act (Act) (Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1013.3 [415 ILCS 5/13.3]) requires the Board to adopt regulations that are "identical in substance" to USEPA pretreatment regulation adopted pursuant to Section 307 and 402 of the Clean Water Act. These rules are contained in 35 Ill. Adm. Code 307.

On February 16, 1995, in R94-10, the Pollution Control Board entered the following order pursuant to Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1007.2(b) [415 ILCS 5/7.2(b)]: Pretreatment Update (July 1, 1993 through December 31, 1993):

Section 13.3 of the Environmental Protection Act (Act) (415 ILCS 5/13.3 (1992)) requires the Board to adopt regulations which are "identical in substance" with U.S. EPA wastewater pretreatment rules adopted pursuant to Sections 307(b), 307(c), 307(d), 402(b)(8), and 402(b)(9) of the Federal Water Pollution Control Act (Clean Water Act), as amended. The term "identical in substance" has recently been defined in Section 7.2 of the Act. Section 7.2(b) of the Act requires the Board to adopt a rule within one year of adoption of federal rule, unless the Board extends the time based on a finding that the time is insufficient and stating the reasons. It appears that the regulations in this Docket will be late. The Board is therefore entering this order to extend the time.

The Board hereby finds that an extension of time is necessary. The presently-anticipated completion date for this proceeding is June 16, 1995. The reasons for delay in adopting these regulations are changes in staff and the amount of staff time devoted to other proceedings subject to a statutory deadline, did not allow the fuller attention that this matter required for more timely disposition.
